Thread: [\[Tutorial \]----- How to Increase your profits E-whoring ----- \[Tutorial\]](#)

ROFL OMG - July 13, 2015, 7:48 pm

? Hey guys. Writing a quick guide to show some of you ewhores a very simple way to increase your profits that I currently use.?

This method is effective for earning money from people who are not willing to pay you for nude pictures. This site uses something called pay per install. This website will pay you each time you are able to successfully get someone to download FREE apps on their iphone/android.

Here is what it will look like for your clients when you send them your link:

<https://gyazo.com/371de750c015957ac49a4b3771b22476>

What we are going to be doing is sending a link to each of our contacts who are trying to time waste you. If you successfully get them to complete the offer, you will receive around 40 cents per installed application. The profits are not much, but if you successfully get 50-60 people to do this daily, and add that ontop of your e-whore earnings, you can profit an extra 50-60 dollars daily.

To start go to this link and sign up: <http://members.theblumarket.com/apply/19330>

It is important to use your correct details when signing up for this website as this is how they will be paying you out. Now this is the catch for this website. They are 100% legit and will pay you out, but they will need to verify your personal information such as your SS number. For me I don't mind giving this out because I am able to profit much more using this technique. Also the minimum payout is 100\$. They payout via PayPal, Bank transfer and one other method I forget. If this is a problem for you, don't waste your time.

Here is the signup screen:

You are going to want to use a real social media account to list on your application. Sometimes this website denies applications, if they deny you just keep trying. Find a twitter/instagram account with 20k+ followers, and list them in the boxes requested. Applications usually take around 24 hours to be completed, once they accept/deny you they will send you an email.

For those who have been accepted:

For those of you who have been accepted to theblunetwork it is now time to create your money making link. After you have signed into your account, navigate to the section on the left side of your screen and find the "content locker" tab. Click "create"

Here is an example of the settings to use on this page:

<https://gyazo.com/cbf895f698a59ccbebaeeef867aa14a>

After you click save you will get a window that pops up like this:

<https://gyazo.com/f3f77419cb1b7274089872d81fbbd060>

Simply click "shorten url" and copy that url.

----- Spreading the link to your timewasters -----

This is simply a way to boost your earnings and should not be used to replace your original method.

Once you find a client who is simply wasting your time have a message copied and pasted to say something like this:

"Sorry I am extremely busy with clients at the moment who have payed me and I cannot continue spending time for those who cannot pay. If you'd still like to talk to me and receive pics go to this link on your phone (your content locker link here) and just download the 2-3 applications shown. After you've downloaded them you need to go to each app and open them each for 30 seconds. After you've done that come and tell me and ill check to see if you really did it"

Note: only send them this message, don't waste your time talking to them or guiding them how to do it. This is supposed to be used to boost your profits not take away from them ;)

Sorry if this thread seems like it contains too many words or if i've confused you. Send me a PM with your skype username if you need help I can help you out. This is simply a method that I currently use to increase my profits, and may not be helpful to everyone who tries it. ??

Nice so in your personal experience you can get \$1 for every time waster most of time correct?

It depends. Usually if I have a hint that they are not going to pay I will send them my pre-set copied message and hope to get them to fall for it. Some do, some don't. Its not really worth it to message back and fourth with them in attempt to get them to install the apps. Just send it and move on and hope for the best. You can easily use your time wasters and get a solid 20-30 dollars more income per day if done correctly with a nice amount of traffic.

I've been using a spinoff of this method for about a week and I've had great success with it, and this is with crakrevenue, just auto msging everyone that kiks me, only about an a hour daily.

Yeah it works pretty well to be honest. If you don't spend to much time attempting to make the people install the apps and just spread it around to the time wasters it can be very efficient.

Dangerz - July 14, 2015, 4:10 pm

This looks nice, but can I tranfer the money to my paypal whenever I want? Or do I need to wait a week/month?
