Thread: [~~ AngularJS's Brand New RAT SETUP SERVICE - \\$5 LIFETIME - Lots of VOUCHES! ~~](#)

AngularJS - July 16, 2015, 7:00 am

Welcome To..

AngularJS's Brand New RAT SETUP SERVICE!

About

Hello,

Thanks for checking this thread.

My name is AngularJS and I provide high quality RAT setups for a good price.

I can set up every RAT you have, help you with portforwarding and even give some basic spreading tips.

I will do this live for you through teamviewer so you can even learn something of it yourself.

This service is for everyone who is struggling with the setup of their RAT.

If you want more information, please PM me.

~ AngularJS.

Pricing

I got two different packakges with different prices.

Package 1: One time RAT setup, no support after: >>\$4<<

You can pay with PayPal and BTC.

TOS

1. No chargebacks.
2. I'm not responsible for anything you do with this RAT.
3. No refunds, only if I think it is really needed.

Vouches

These vouches are all from my old thread:

Spoiler ([Click to View](#))

Quote:This guy is awesome, thanks for providing me this service helped me out alot and solved my rat issue with imminent monitor, big vouch!!!

Quote:Vouch, smooth service for a very cheap price. Thanks man! :)

Quote:Vouch for XAnacondaX, done some work with him in the past :)

Quote:Big vouch for my friend here, GLWS :)

Quote:Vouch for my friend Anaconda.

He knows how to twerk like Miley curys and he also knows how to handle a RAT perfectly.

GLWS!

Let them do it?

I don't mind if people do that.

I'm just offering my service here.
