Thread: [Recreate this picture in the style of another picture](#)

Paathurnax - July 17, 2015, 6:32 pm

I'm looking at getting some tattoos soon and I'd love it if someone could create the first picture in a similar sort of minimalistic style to the second picture. If someone could get it looking good it's definitely something I'd consider getting tattooed.

I understand what I'm asking here probably isn't easy. I can picture an idea of what I'd want it to look like in my head, but I'm no artist and I wouldn't be able to recreate that on paper.

The pictures are below.

Recreate this picture; <https://i.imgur.com/II93eew.jpg>

In the style of this picture;

You need to fix the pictures. Both are the exact same image.
