Thread: [\[Wiki\] Does anyone have these old group banners and userbars?](#)

D3xus - July 18, 2015, 4:23 pm

One of the main features of the Hack Forums Wiki is our group history. Every official group that ever existed gets a page. That being said, things get lost along the way and images drop off the deep end when all groups use the exact same image URL for their threads.

I have a lot of the images we need, but they're in a poor quality or aren't representative of what their original versions were. If anyone has access to or actually has the original group images, please let me know by posting them below. Thank you so much!

Also, Respawn had a blue userbar in their first go-around. I can't find it anywhere...Does anyone have it?

If you have a higher quality version of any of the above images, please post them below! Thank you

so much!

Always nice seeing things that were around before you were, nice job on the entire group updating/lists.

Good luck finding what you need.

5chn4pp - July 19, 2015, 12:13 pm

If i remmeber correct, does HFES not have a custom group banners?

kawaii - July 19, 2015, 12:18 pm

I've had this on my external hard-drive for years now. Knew it would come in handy one day. Root was the first HF group I ever joined.

I appreciate you posting this stuff, but I only really need what's in the OP.

Thanks a bunch for these userbars. I have a lot of them but I'll see if these are better quality than the ones on the Wiki.

The fact you stickied this is a joke

Omni actually did that. It's a shame that we can't get support for the wiki without people like you bitching about something. It's funny because you're exactly also one of the people who bitch about it not being perfect, but when we do something like this to try and improve it you come on our thread and bitch at us. Hop off our dick, we're just trying to make a Wiki members can use and enjoy.

I might have a BlackShades banner on my drive somewhere too. IIRC it was just the massive pair of black sunglasses and no text.

Hash G. - July 20, 2015, 12:34 pm

Okay, I don't know if it was an official group but I found that :

It looks like it's from 2011-2012. I wasn't there so I can't really know.

It also had that shine effect along the name..if that makes any sense.
