Okay soo i like to mix all kind of soda like cola and sprite ?

yesterday i tried to mix Red Bull and Chocklate milk, and if you want to be on the toilet for the next 24 hours this is a good mix.

What kind of Sodas and stuff do you like to mix? :D

Um.. I kinda understand mixing coke and sprite or something -- but Red Bull and Chocolate milk?? That just sounds terrible.

I've never really mixed drinks really.

I love to make "suicides" by mixing a whole bunch of different shit. I mainly do this at gas stations. Example of something I often make:

Dr Pepper + Orange soda + Raspberry Sunkist + 2 squirts of blueberry flavor + 5 squirts of lime flavor.
