Geeky. has reached their private message quota so your message could not be sent.

You need to input a domain when creating an account, but yes. You do get cpanel access.

I have cleaned out my PM space.

Sirius Black - July 19, 2015, 2:44 pm

Still waiting for the PM for a vouch copy. If it's true that we get Cpanel-access I'm interested.

Thanks for the DDoS protection vouch!

It has been very reliable in my experience

Marcos MC - July 19, 2015, 4:11 pm

Can i get a vouch copy if it is possible?, thank you very much and good luck on sales!

I just received a vouch copy and it seems the web hosting is running on a low-load OVH server (so DDoS protection is guaranteed) and has nice features (such as auto-installers, modSecurity and SEO Tools). Definitely an offer you couldn't let go for \$0.02.

Good luck on sales.

Regards

Thanks for the vouch!

I may be setting up a website soon depending on how sales continue to go.

I have made \$0.80 so far.

The \$0.40 allows you to host 20 domains which comes out to \$0.02 per website.

Vouch, just had a little bit of a minor issue which was resolved quickly; very cheap and quick to set up.
