Thread: [301 views ranking method?](#)

Batcard - July 20, 2015, 5:07 am

Do you have to upload your video as Private or Unlisted? And then boost it and make it public and it becomes number 1 rank.

Thanks

Man, there are several aspects which effect ranking.

Unlisted method works only for particular niches and the video won't stay on the first for long.

So if you are looking to rank your video for a long time

1. Get HR views
2. Social signals
3. Likes / Comments
4. Etc etc. Ofcourse I can't tell you everything :)

Method is so fuckinh saturated and doesn't work as well as it used to. Don't follow any of the "rank your vid quick" method because that will get your video removed

Unlisted and then public.

Don't put adsense on either..
