Thread: [Omnichain down?](#)

Fudster - July 20, 2015, 10:35 pm

<https://omnicha.in/> seems down. Anyone know why?

SSL expired and I haven't had time to renew it. The site is accessible on http, but some browsers block it due to HSTS. Chrome works but FF doesn't. I'll try to get it fixed soon when I get a break at work.

Ah Okay. Well just a small FYI I got a "ERR_CONNECTION_REFUSED" on chrome.

My goal in life is to get called Bro by omni.

Ontopic: Getting that err thingy too.

I don't have a redirect; it's either CF or HSTS. Both http and https have been working fine since last night.
