Hello there, it's been a long time since I didn't released a theme, so I wanted to create a new one, it's called Clear theme, and the theme is inspired by <http://op.gg>.

Looks pretty good, man.

The only things I would change are the bright line going across the left and top sides of the button and the red and blue colors in the progress bar clash.

Very clean looking theme man,
Good work.

Cool ?

I actually almost asked that question. The more properties, the better.

Really nice theme! I'll definitely save it for some uses if that's okay.

This theme looks really nice and is different compared to some of the other themes released.

AustinPape10101 - July 21, 2015, 5:56 pm

This theme is so slick and clean. I will most likely use this, with given credit of course <3

Beautiful theme mate!

Very clean style

Great job Aero, appropriate theme name! Do you plan on taking it further with more controls (hint: ThemeContainer)? My only issue is with the slight bevel-ish effect on the buttons but it was inspired from, as you said.

Job well done.

Custom status strip is extremely easy.

It would only take like 20 lines.

Looks good man :). Nice job.

BludeonMe - July 23, 2015, 10:58 am

Very clean, I like it! I am inclined to agree with Hawk regarding the progress bar although a good part of that feeling may be because of the bright red button right above it. I covered up the red button and the progress bar did not bother my eyes as much but perhaps a change. Maybe a less bright shade of one of the colors. Or leave it the same..totally up to you haha

Nice theme man ! ? Thanks for releasing it
