Thread: [Stresser Source Retheme - Get a Private Stresser Source! - ONLY \\$10 THIS WEEK ONLY!!!](#)

Down Quark - July 21, 2015, 5:58 pm

Hey guys! I am a skilled PHP developer and would love to make some stresser sources for the HF community!

I am currently really in need of money and will be doing this for \$10

Thats right! Only \$10 for me to spend 1-2 hours working on a source!

If you want me to put in more time, tools, features, ect, it will cost \$20!

Message me now!!

MineSQL - July 21, 2015, 9:53 pm

Well, this looks like a scam for \$10 and your stresser source. Who would waste that much time on a retheme for only \$10?

It is only 1 hour or less for me.

I have become very quick and I tried selling at \$20 and literally nobody bought it.

So, I have determined that if I sell at \$10. Maybe, I can work my way up.

Also, here is a source I released for free.

This took me literally 20 minutes to make and it garbage compared to what I would put in for paid work.
