Thread: [Thank me later](#)

Hello. As some of you may or may not know I used to be an rs07 gold seller. I plan on quitting rs07 and selling my main account. Since I am quitting I wanted to release some of the methods my bots used to make money.

Method 1: Rings of Recoil.

Making rings of recoil is very simple and isn't that time consuming. I'm going to be telling you the best way to do it in order to maximize profits. Start by buying uncut sapphires, gold bars and cosmic runes. Next, start cutting the sapphires. This process is really afk so it shouldn't bother many people. After that, you want to head to Edgeville. In your inventory bring: A ring mould, 13 gold bars, 13 cut sapphires and cosmic runes Optional*. Use your gold bar on the furnace and turn them in to Sapphire Rings. *Here's where the cosmic runes come into play if you choose to bring them After you're done making the rings enchant them, bank and repeat. You make around 60k profit per 100 made.

Method 2: Decanting Super Strength Potions

This method I thought of with a friend while we were writing a herblore script. What you want to do is buy Super Strength Potions(4) and split them into Super Strength Potions(3) and Super Strength Potions(1). After you're finished sell each in the grand exchange at regular value, or the value the grand exchange sees them for. You make profit but this method is a bit slower.

Method 3: Hunting Chinchompas

This method requires a minimum of 83 hunter and is very good money. If you're at the hunting level of black chins then hunt those. I cant remember the level as most of my bots were 99 hunter. There is a method to hunting black chins no matter your level where you cannot be pked. The method requires an alternate account within 30 levels of the account you're hunting on. What you want to do is, while hunting black chins, have your alternate account splash on you. In order for this method to work correctly you must be in a pvp world or other players can attack your alternate account and stop the splashing. I always used two bots for this method as it was the fastest money making.

Method 4: Cooking

Yes, cooking. Cooking is a very good way to make money especially at higher levels. If you have done the quest "The Fued" then I strongly recommend cooking gauntlets for this process. I had a bot doing this method merely to test it while the other bots were my primary source of income. You start

to see profit at around level 65-70. At that level or around there you stop burning lobsters so you're making pure profit just by cooking. Not to mention this skill is very afkable. If you decide to go with this to 99 cooking which I strongly suggest as it made me well over 15m in a week then move to monk fish at around 90 cooking. These are the second most profitable fish you will be cooking. Stick with monks until about 94 then move on to sharks. Right now with zulrah and all the fishing bots raw sharks are extremely low in price. Take advantage of this and start cooking them for maximum profit. Stick on to 99 if you want to make the money amount of money you can doing cooking.

These are just a few of the many methods I used to make money on rs07. They worked very well and I'm sure many of you will profit off of them also. Ciao.

Edit: Ill be releasing these threads each week.

Thanks for sharing these man I wasn't aware cooking was good money'

Dickleson - July 22, 2015, 2:25 pm

Just an addition.

A lot of potions can make profit, not just super str.

Also another method for money (last time i checked) was making snapdragon unfinished pots.

can make a lot an hour.

my old script when i used to bot them it was average of like 500gp+ per pot idk about market now.

enjoy if its still viable method.

Elegant - July 22, 2015, 4:26 pm

I'm currently doing method 1 as we speak lol. I'm 3k/5k done.

EricBoosting - July 22, 2015, 5:21 pm

Thanks for sharing! may i ask why you are quitting? :)

ze-slade - July 22, 2015, 5:25 pm

I'm actually installing runescape to see if it's worth playing today and if it is I might use this to my own personal use.

Balding - July 23, 2015, 1:14 am

All these methods will make you profit. I hope you make as much as i did!

redBit - July 23, 2015, 5:51 am

Bots will get you banned so it's not worth it botting cooking for money. If you say you've been botting why wasn't you caught? Nice method anyways i'm gonna try method 1 thank you for this thread.

The first time I ever tried to make money on RS I set up 25 bots and had them all chop yews, and I made about 30m a day until every account got banned but one that wasn't logged. I am looking forward to trying a more organic method like these, so thank you for that hahah.

Mine was free because I made my client and scripts but for people buying hm..

Price of a decent vps + Price of tribot premium + price of tribot premium scripts.

?Cyber - July 23, 2015, 11:33 am

Fuck bro I used most of these methods, doubt HF will drop the profit but -.-

Yeah either one works. I guess topbot would be better.

They dont really make a difference. Just try and find a cheap but good plan.

Lenchmob - July 23, 2015, 12:49 pm

How many gigAbites for 3 bots would you say?

Well this should be interestin I might do 2 Fishers to feed one cooker, where should I buy some proxies? Like what type?

xenko - July 24, 2015, 12:24 am

Thanks for the methods OP. Might use a few of them if I ever feel like suicide botting for some cash.
