I was kinda sad that I lost 4500+ posts but who gives a fuck about that?

Instinct was/Is the BEST group on HF. Been there since the beginning of the group, 2 days after the group got public, (Vinnie invited me on into the group) to the close a few days ago. Through all the changes ect ect.

I've never been in a group that is so laid back and chilled. No assignments and a few activity checks here and there.

Everyone was a right laugh.

As if it's even relevant now, I'll clear this up one final time:

We had 24 hours to pick echo or instinct before the mass-kick.

I left Echo, because I had more friends (or w/e) in Instinct. After the blacklist thread was removed in instinct I was added back to echo a few weeks later.

No one mentioned anything about having to pick either.

Didn't seem to be a problem with the leaders I spoke to. Shit was cleared up (I'm pretty sure). Idk.

That's all I know.

Anyway, let's end the conversation about that.
