I haven't thought of giving away vouch copies yet. I feel that the introductory price at \$19.99 is more than fair especially for the value that is in this system. ?

If you ever give out vouch copies, just PM me and I'll give you a HQ review.

MiLkBoNe - July 23, 2015, 11:45 am

No vouch copies will be given out. I want customers to read real customer reviews instead of just "vouches" hope you all understand. :)

Interesting, just a few questions though.

Are you still using this method?
How much are you earning now?
How much do you have?
Can you show me some live payment proof?

Discern - July 28, 2015, 7:49 am

Seems interesting, considering buying, you just need some reviews.

RoughLyfe - July 29, 2015, 8:06 pm

Hey op when will you post payment proof?

henrytheunicorn - August 7, 2015, 3:53 pm

If I buy this..well..I get the feeling I wouldn't want to post a review to keep the method to the few people who own it like me :)

But if I get support from you to even further my earnings, I would post my review :P

So I'm assuming this is autopilot? How fast is setup?

henrytheunicorn - August 7, 2015, 9:54 pm

(Aug 7, 2015 07:47 PM)MiLkBoNe Wrote: [\[CITE\]](#) Great! I'm assuming that's why no one's posted their review is because they're making some good money! I've sold quite a number of copies without having to provide a refund, so that's a good sign! ?
So is setup fast and easy for autopilot income? I can't PM u due to low post count

LuvXo72 - August 8, 2015, 1:09 am

Is it autopilot? Aaaand sorry for the list but is it any of the following ewhoring, cpa, ppi, reselling social media, eBay, fiver, and t shirts?

SIM-2223238 - August 8, 2015, 3:52 am

Are you interested in a OG review?

Most people don't understand you can't "get rich" off one method alone (at least not any method someone in the right mind will sell you. What I'm providing you with here is 3 of my PERSONAL income methods that make me a large sum of my monthly revenue. I'd personally be happy with \$25+ a day lol. Anything that helps pay for gas, now that I gotta pay for gas now..

But if it seriously is that easy, well, I think I know what I'm going to buy next.

370Z - August 9, 2015, 12:00 pm

I am considering purchasing this eBook, I am not sure if it will be worth it for me. How hard would it be for someone who hasn't attempt once to earn money online? I have looked at a few of some free ones that talk about affiliates or whatever, but that straight up confused me. How hard would it be for me? I want to start of small and slowly go up, I wouldn't 20 a day at the beginning.

Cheers

Howdy All!

I recently been working on a new eBay niche method that's brought me a little over \$200 this week. I need your input if I should add this method as a possible bonus to the Overnight Income system (for those who really need every penny they can get).

Here's a screenshot of my week's earnings on a brand new eBay account.

[img]http://#/3TRdCg.png[/img]

Is this something you guys would also be interested in being included?

Appreciate your inputs! ?

P.S. The Overnight Income system does NOT include any eBay methods. Do it ?. It'd be a great addition to methods that are already there.

Vouch for this user and his ebook, bought it and it works flawlessly. Bought it 2 days ago, and must say the methods included (they are 3 + 3 extra methods) are awesome, guaranteed reward as long as you put some effort in it.

This week so far:

Code i.imgur.com/CYaum38.pngI made ~\$240 this week with the methods in this ebook. \$80 is from the eBay method included in the ebook which is quite good as well. Overall id recommend to those who need to make a easy moderate income.

I've pm'ed you my skype name a couple of hours ago. Do you have any time to talk about the methods? I have a few questions

Badnews77 - August 25, 2015, 8:51 pm

So is there an age restriction cuz I'm 16 and really I just want to make some money before I go to college

(Aug 25, 2015 08:51 PM)Badnews77 Wrote: [\[CITE\]](#) So is there an age restriction cuz I'm 16 and really I just want to make some money before I go to college

Purchased it, so I can tell you that you can do it if you can read and write, that simple.

RoughLyfe - August 25, 2015, 10:41 pm

Do you need a microphone or any requirements?

And can anyone do this,no age requirements

Cowso - August 26, 2015, 3:00 am

Can I ask, is it click intensive? Do you have to sit there and be active or can you just be afk and come back to it every hour.

MiLkBoNe - August 26, 2015, 4:02 am

(Aug 25, 2015 10:41 PM)RoughLyfe Wrote: [\[CITE\]](#) Do you need a microphone or any requirements?

There are no requirements besides an internet connection. No microphone is needed nor does it matter what age you are. Youngest customer of mine is 14 making ~\$770 a week and just started on the second method.

(Aug 26, 2015 03:00 AM)Cowso Wrote: [\[CITE\]](#) Can I ask, is it click intensive? Do you have to sit there and be active or can you just be afk and come back to it every hour.

No this isn't click intensive. You set these up once and they keep generating you income. Only one of the three methods must you "check-back" now and again.

Will buy if I don't have to do anything like wait for a stupid password.

Very annoyed at any ebook sellers doing this completely pointless thing, this is a forum full of hackers, it will not make the ebook any more or less secure/leakable at all.

Just a waste of time and lost sales from people like me.

I'm from a country where we do not use eBay and other such services as our main source of auctioning, selling therefore do not have a verified account, an account with feedback which from what I understand is needed to sell? I always see you on every ebook thread saying how much money you made. Seems really shady considering so many people are having issues with this ebook. Its because I do make money with it. I used the 2nd method and something is coming up soon to make the 1st method work even better.

I've never tried these kinds of things, but this seems promising. I just think all of these methods seem kinda sketchy, i mean, how do i know its safe to use? That i dont come to owe someone money? Or do i do everything myself through eBay?

Do i have to buy the book to know?

So im actually pretty interested in purchasing your ebook, i'm usually very sceptical about these kinda things but it looks very promising.

How many hours per day would be required to be put in for it to be profitable?

And would the hours be needed to repeated each day for the same amount of money or will the hourly flow decrease while the money flow will stay balanced? I'd love to have a chat through skype with you before i purchase or anything, as i can't pm yet since i haven't gotten 25 quality posts yet.

EDIT:: is it possible to purchase this with paypal? as im only getting the option to buy with a CC

EDIT2:: Worked out and got the ebook, messaged u on skype. Looking forward to working with you.

Just a question why dont you set up more account yourself instead then of selling this? Is it because you cant get enough paypal accs? or whatever other reason, i mean, you earn way more setting up one account than selling it.

kekaju123 - December 22, 2015, 7:06 am

Not sales trashing, Honest review.

1- When I first opened his eBook i noticed that 2/3 methods are not even remotely relevant to paypal so i'm confused on how ALL of your payment proofs relate to pay-pal.

2- The ONE method that is relevant to pay-pal, does not take nearly the amount of income that the payment proofs provide.

3- I did manage to make SOME money off this after only having this one day but NO WHERE NEAR what the OP is advertising you to make.

IMO: The proofs are fake.....

I sent you a pm and responded in the thread on Dec. 17, Post #373 >> Could I get this please?
thank you <<

You made a post in the thread this month on Jan. 3 Post #400 >>Still sending this out if anyone needs this <<

I responded again in the thread on Jan. 10 Post #405 >> I had asked for this in this thread on Dec. 17, but never received it. <<

I have still never received the guide. If I can not trust you for something that simple to send me from that earlier thread, it is much harder to believe your word that the method you are selling here will work.

GammazBeta - January 16, 2016, 11:07 am

Hi MiLkBoNe, you have not replied to my PMs at all on Skype. I would really like some assistance :/ I can't figure it out, and if I cannot by the end of January, I will ask for a refund. Thank you

EDIT: I figured that I'd get a refund. Is that possible MiLkBoNe? Thank you! (Also, my PMs on HF don't work yet sadly. My last 7 digits of the transaction number is 1279549)

tfffff - January 16, 2016, 11:43 am

So you are deleting my post about truth and you are not willing to get me a refund. FUCKING FRAUD!!! Do not buy! It is a fraud methods are not worthing shit and you can't get refund. Do not buy!

judaismtruereligion - January 17, 2016, 7:01 am

doni1992 - January 20, 2016, 4:52 am

this ebook is pure crap too, dont invest something that is NOT worth!

Trickster - January 21, 2016, 8:59 pm

Open a disput on PayPal / hack forums this user says in his terms a full refund will be given there was no refund received from him

Please note: if seller says to remove the claim from PayPal before he can further "support" you don't do it instead escalate it because he's trying to trick you into closing it so you can't disput it

down the line when he fucks you over

GammazBeta - January 22, 2016, 7:19 am

MiLkBoNe replied to me and helped me, but sadly I don't have enough privileges to carry out this ebook's methods due to personal reasons. However, he is a very friendly guy excluding the long customer service. I can't say much about the eBook though, it deserves some praise if you're a complete noob like me and this is the first ever eBook for monetizing techniques.

But because of my personal reasons, MiLkBoNe, I'd like a refund. Thank you!

Hard work isn't the way. PASSIVE INCOME is the fuckin'way. Work smart.

Everything that is a PASSIVE INCOME, even if it's only a few bucks a day, should be tried looking to the quantity. Passive income gives you TIME, the only thing that can't be bought.

A PASSIVE INCOME METHOD THAT MAKES HUNDRED BUCKS A WEEK?? HOW CAN I SEND YOU A KIDNEY ON PAYPAL?? :)

Droogy - February 20, 2016, 9:09 pm

Hey I wanna purchase this ebook, but I have never bought one and I'm always skeptical as to whether it's real or not. I just wanna know whether its trustworthy or not, I've seen a lot of people saying good things about it, I don't know if it's worth buying, I need to earn some cash ASAP.

Droogy - February 20, 2016, 9:25 pm

(Feb 20, 2016 10:20 PM)MiLkBoNe Wrote: [\[CITE\]](#) This eBook would be your best bet, especially if you're newbie (ex: NOT earning more than \$5,000 with online earnings). Overnight Income comes with 3 newbie methods (\$2000-\$5000 a month) and one intermediate plus advance method (\$5000-\$8,000 a month).

All the other ebooks being offered just don't quite offer the value that's being offered here. ?
I'm kind of a lazy person, going to buy this, sounds worth it. ?

feel that I would show the immense appreciate I have for milkbone's ebook and mentoring program

I own a website that already makes me \$2k monthly but I was looking for more another way to make more money, I went ahead and purchased the ebook 3 weeks ago.

Needless to say I was able (with an investment of \$60) able to earn more than \$6,000 with the methods alone just this month.

Here is my Paypal balance at the moment:

Milkbone was very patient with me and helped me set up all 5 income streams and mentor me with my existing website. Overall the \$90 for the ebook + mentoring was a complete steal and was the best purchase I ever made on HF.

P.S. the method i used to earn was method #4 and #5. ;)

I find #4 method a little harder. For #5 , I'm actually in that industry just started focusing in that business during Jan.

Lets talk on skype if possible haha

I will buy your ebook soon maybe in 2 days

PipeQT - February 24, 2016, 4:34 pm

There's no complete mentoring, he doesn't answer on skype, and if he does there are vague answers nothing to point, there are a lot of forms you have to go through in the process and it can be tricky- again no support for this or questions. I believe this is just a big clown fiesta going on. The book is bad written and the steps can probably be followed by a person who is familiar to this or did this before.. MAYBE, but to a complete newbie this is a complete foreign language it's like you're alone on an island without hope. I know I might be bad at setting up things but honestly I wouldn't have bought it if he didn't promise "complete mentoring". I guess it was just a money loss for me overall since I can't get this set up alone, wouldn't reccommend this. You can -rep me or insult me I won't care anyway, this is my honest oppinion after purchasing this thing.

PipeQT - February 25, 2016, 4:19 am

Will start doing it in the next week or so will post my earnings.

Williham - March 4, 2016, 8:35 pm

I have done four of the five methods, personally they have not been working whatsoever with me. This would be completely fine if

MilkBone would help me out. When I talked to him he seemed rather ready to help me. When he did "help me out" all he did was

ask a series of questions, took forever to respond, and stopped responding about 7 messages in.

Honestly as it seems to me, MilkBone seems more interested in making sales and screwing people over than actually helping people

as he advertises. For anyone that was wondering, I purchased the full package in order to get the most help I could get. This does not matter.

I have also asked him for THE FULL REFUND HE OFFERS and again, he asked for email and I never received the payment. Yes, some may make

plenty of money using this method but overall his promises are not met very well in many cases. Please MilkBone, will you please refund me as

you deny my help and continue to ignore me. This is to the people that are hesitant to buy. Take this into consideration.

I would provide proof but there are no images allowed.

Hello, I just want to say, that this e-book is written very well (little sloppy in grammatics) and also the methods should work quite well BUT, you need to do a lot preperation work to be done before actively be able to earn good money. (it's nothing for noobs without any knowledge to get quick money without any homework to be done. (the thread title is a little deceptive in this case)). You need a time, to figure out how the things could be working good (you need brain). Also, that some methods are a bit saturated. But for the understanding of the ground principles of earning money online this ebook is very good.

I bought the premium service and got in contact with him on skype. He is a very busy man, but is responding on the messages regularly (although it can take a while, till he is responding)

But this guy seems legit to me and as I experienced, he is thinking about how he can halp you out with your issues.

I would vouch for this guy and for his methods. ? - but please....be more realistic in your thread title!!!

DarkHead34 - March 15, 2016, 12:24 pm

The methods are HELLA hard for you. Not for newbies! Dont fail and waste your time like I did :(He is just a liar and a scammer, Responds to one question once 24 hours and 90% saying something about he was busy etc. Scammer. I hope you learned from me. Have a good day guys and dont purchase that shit. :)

.Void - March 15, 2016, 6:21 pm

I recently purchased the power package and have yet to earn any money from it. Most of the methods are saturated and the same principle ideas can easily be found in free e-books. I also have received little to no support over skype, messaging him multiple days in a row to receive either a one line vague response or no response at all. Since I purchased the power package I would like to take advantage of the full refund guarantee and receive my refund please.

Mrzcho - March 16, 2016, 7:17 pm

Can't I pay you after I've got some money from this system?

Wang™ - April 6, 2016, 10:03 am

As a brief review I'd say the eBook is quite useful to people whom have a passion to want to engage themselves into something. Really it's just a hint with a brief guide as to a directive to proceed into. It's quite simple but I'd say a few methods require moderation and unless you're business minded and have a great deal of time then you're not going to INSTANTLY earn mega bucks and become some sort of cash flowing entrepreneur over night. I'd say the methods used are quite good and are basic in business if you're aiming to get a good return/profit. But overall it's a quite open guide, I only bought the basic one but it's simplistic and you'd have to be idiotic to not understand it. I seen a few grammar errors but overall who gives a god damn crap!

Would you mind hitting me up w/ a PM and give me some general idea of what this entails, I'm happy to spend the little bit of money I have right now if it will allow me to earn....my work ethic will not be a problem, in the past it's been hucksters and snake-oil salesmen that have relieved me of some cash on a couple of occasions with promises of huge returns that never even came close to a fraction of the promises made...Just don't need that happening again...Thanks

Does this method require any investment? Do you have to pay money to start up the income streams?

Can these methods be used by a 16 year old high school student (my son)?

Are these methods "noob" friendly?

After the "30 minute setup", do these methods require time-consuming maintenance, do they put any stress on you?

Purchased Power Package, I am now waiting for some support, I'm guessing there's a lot of people to help so I'll have to wait my turn, If I can't catch the OP to teach me due to my 9 hours work schedule I will just have to refund it.

But if all goes well, I will post a full review as someone who has never done these before, so lets see if I can make anything without any knowledge at all.

Edit: I actually made an appointment with OP at 7pm PST for today, but i'm not getting any reply yet on skype, sadly, even with the power package, I might have to ask for a refund soon because my schedule with Milkbones seems to contradict. But I don't doubt he's a great teacher and e-book writer.

All these methods are 100% legal, moral, and risk free. They can help you start earning actual money online in as little as 12 hours.

Everyone's going to say their's is different. What separates my eBook is that its actually working. It's the same methods and techniques that I use to make my income online. This isn't some rehashed or public method that you'll find the other guys selling.

My attention was actually more focused on the 2nd and 3rd method though. Now those methods & Blueprints all ready made methods are just great! lost of GEMS in here. Anyone can try them & use them!

I think this is one really valuable pack! Filled with not just One awesome method! But the Private bonus content has methods and Blueprints that are just amazing easy to set up..One method is just

done for me and takes no time to set up.

Price of the Pack : CHEAP

Value of the Pack : GREAT

Difficulty: Easy

Investment needed: No, not that i can see

Verity: You have not one Method but a few for all different people i guess ?

Do screen recording using snagit 12 or any other software to prove it is working, because many people sell crap methods where you cannot earn money.

Please take this in a constructive way, OP. I've just PM'ed you coz I wanted to buy through Amazon

But as there are negative comments here, I'd feel much more comfortable if you clarified it. I think a reassurance/clarification would further boost sales

SMOKEDOUT69 - June 10, 2016, 11:10 am

Just a quick question but why are all the package files the same size like I clicked the link for a couple different packages of different prices and they both the same size surely the more expensive one would be bigger right? Just inquisitive as if this is a genuine working method book I am interested in it for sure

anyway it said to post this and you will give me a bonus,
what i still want to know is if i am having trouble can i get some help somehow??? You never answered my skype or post so i didn't want to chance not getting ahold of you like some other posters said, and i did put in the right skype your same avatar came up on the skype site

Mr. Sultan - June 23, 2016, 12:53 am

Was hesitant to buy this at first (I already run a few online businesses) but i figured wth it's only what ~\$50 at the sale price. Went ahead and bought it. Starting at just \$175 in my paypal account i earned over \$1,000 in just 4 days.

I probably could have gotten away with just the value package because the ebook is highly detailed and has images with step by step instructions but i went ahead and got the mentoring package just because i wanted the bonus (which blew my expectations) I've seen what's in the bonus cost \$800+ on other websites.

Overall this system is a steal! 10/10 would highly recommend to anyone trying set up multiple online money streams.

Bought the Power Package deal, let`s see if this actually works!

Is it 100% Autopilot?

Absolutely. After setting up, you'll be earning day in day out without even turning on your computer.

I didn`t really see any autopilot method, all methods need some sort of work that requires time to setup and keep an eye out.

- Will give full review in 2-3 days.

JamesTayJohnson - July 6, 2016, 11:51 am

Purchased the Value Package and I'm already really impressed with how it's layed out and explained, much more coherent than others I've seen and straight to the point. I can see how these methods will earn well, and I wouldn't have considered most of these alone so I'm very much appreciative. Will update with earnings when I act upon the methods over the coming week. Thanks!

Dude. - July 9, 2016, 6:11 am

Okay, here's my review of this e-book.

I bought the power package around a week ago, I've not made any money off the actual methods within the book, yet, but I will definitely do so in the near future.

The way the book is designed it allows you to not only devise your own techniques, but also guides you in the right direction of doing so.

I've made around \$300 by copying the methods, and adjusting them slightly. I can assure you, if you're thinking of buying this you WILL earn money within the first day or so by following the methods listed or creating your own.

Glad I bought it, I vouch for this, well done MiLkBoNe.

The Dude, Abides.

I can't PM and he doesn't respond to Skype.

There are also really only two methods, and one is against the ToS of the respective site (BlackHat).

The other method is saturated.

Never buying ebooks again.

RiceGum - August 1, 2016, 7:49 am

great eBook

i can't say i used all of the methods but i used one and it worked for me
i even added my own extra to the method and it turned out really good,

don't expect to get 500\$ on the first day,
but you need a good day or 2 and once you get the hang of it i promise you will get profit,
the key here is to be patient,
i personally make from 500\$ to 1000\$ in a week and i am just using one method, 1-2 hours a day i
like this method because it's almost guaranteed

Most of my customers are non-upgraded members, therefore they can not rep. I don't encourage them to rep either. I don't see how rep is important for any other reason then to verify someones overall behavior on Hackforums.

Fair enough, thanks for the quick response! As far as how much time is needed daily to make these methods work, how many hours an I looking at daily? Is there further investment necessary?

MisterR - October 3, 2016, 2:08 pm

Can it be used for Mac AND PC? Or just PC?

Can we get 100% support from you if the money making process is not working?

Also even after we get support from you but still don't make enough money can we get a full refund?

I am very tight on money so it's very risky for me to buy if it doesn't work out. But if it does work trust me I will post pictures of proof and write a positive review about this and reccomend it to friends. But I am very wary about buying

1. Does this method work in any parts of the world and by any i mean does this even work in a rat hole?
2. How do i cash out the money? by paypal? credit card?
3. Can i buy your product with paypal?
4. If i buy the "Power Package" how does the refund work?
5. Does this need any investments at all?

I'm broke, i really need some money i don't want 6k a month i only want 500\$ or 1k a month. If you can guarantee that i'll buy your Power Package with my last dime and i hope this will work.

1. Yes, this will work anywhere in the world as long as you have access to internet.
2. You can cash out via PayPal, Bank Transfer, or Bitcoin in some cases.
3. Yes, you can purchase my eBook with PayPal here: <https://selfy.com/overnightincome>
4. You can request a refund after 45 days if you aren't able to earn anything with the 5 methods.
5. No this doesn't require any investments. However, a option to invest is provided in one of the methods so that you can earn more and earn faster, however it's not required by any means.

It's not hard at all. The methods are specific for those who've never earned money online before.

It's written clearly with pictures/demonstrations.

The methods involve five separate money streams that I personally use to make my income. I call it

"overnight" income because when I first started using these methods I saw money in my Paypal overnight after setting it all up in just 30 minutes.

All these methods are 100% legal, moral, and risk free. They can help you start earning actual money online in as little as 12 hours.

If you have any further questions, feel free to contact me anytime.

Hey there MilkBone, I am very newbie in online making money, and I'm very incredulous in this kind of things but I need a new computer and this looks like a good way of getting the money for it.

I really can't understand how I can make money in such "easy steps" as you mention when in the real world making money has never been easy.

For example I don't know what a money stream is. Or even the bases of this. Is it a program that u set up and he does the work? Or the ebook is just about advices on how to earn money by doing it yourself?

Sorry for being so incredulous but, to me, it seems like a scam or something similar. I'm looking foward it anyways so if you could explain a little more in detail or something it would be nice.

Thanks in advance for your time

- Start small, earn big. It doesn't take much effort to see money coming in. For the most part you can copy/paste your way to your first dollar. The rest will come from your own due diligence. ?

I want to pay with bitcoin should I just subtract \$10 from 59.99?

princeofpeace - December 23, 2016, 1:59 pm

Messaged you on Skype. To be honest, Not what I'm looking for. I want a refund, I bought the power package, I was dissapointed right away. I know new comers can really enjoy this guide, but as someone who already is earning a full time income, Just not what I am looking for. I am sorry OP, I respect you and w/e just not as I thought it would be. I won't be using the methods, I already know 1-2 of them already.

But with that being said, I think noobies can do decent or good with it, but I just don't want to spend my time on any of these methods personally and Won't be.

The methods involve five separate money streams that I personally use to make my income. I call it "overnight" income because when I first started using these methods I saw money in my Paypal overnight after setting it all up in just 30 minutes.

All these methods are 100% legal, moral, and risk free. They can help you start earning actual money online in as little as 12 hours.

Wezaro - December 30, 2016, 8:43 pm

Hello! Im super new to this forum! This seems very interesting! I have a few questions!

How old do you need to be to do this?

Do you need any investment money (except from investing in the actual ebook)?

Since A lot of people have bought this product, how does this effect the "effectiveness" of these methods, what i mean is, since so many people are doing it, can this still make me as u mention 700-1200 \$ per week?

What is the "setting up" process, without going into too much detail ofc.

How long time does it take to set up?

What is the diffrent bonuses? 247\$ ETC

I know it was kind of alot of questions! Please make sure to answer them all! If you get a good and legit picture of it all i will make sure to buy the best copy!

- You can be any age.
- No investment beyond the eBook itself.
- There's no saturation since theres thousands of ways to diversify yourself. This is actually what makes Overnight Income unique. There's literally tens of thousands of different ways to earn.
- Setting up requires some a few website sign ups and about 30 minutes of your time.

- The bonuses contain GFX and extras to help you earn faster, gain knowledge of other resourceful websites for marketing related and non marketing related uses.

Hopefully this cleared up the questions you had. ?

Yes, with the power package there is a money back guarantee. A 45 day iron-clad "no questions asked" refund.

Yes these are the same exact methods I use for my income stream.

How much are you earning now?

On average I make \$3,000 a week with these methods. But again I've set these methods up for a year so i'm steadily profiting much more than you will at first. At the beginning expect \$500~ a week and increases every week.

How much do you have?

Kind of an irrelevant question if you ask me. Do you want my Bank Account Balance? ?

Can you show me some live payment proof?

Sure, in fact I'll just post a video later. ?

Can u send me a gif/ video proof please? i really wanna buy ure ebook but i bought 3 other ebooks... NO success.... so if u could send me a gif or post a gif in ure post thatt would be reall nice :D

Because I can teach people how to make money online while also proving another source of income for myself.

I also gain friendships with many customers and we all contribute to each other's success. ?

the real question here is. What is the method you are doing that is making you a lot of money? All I'm seeing here is screen caps of your paypal. anyone with Photoshop knowledge can make it look legit. What makes your method so unique than many of the other methods online here on HF. I'm interested, just extremely skeptical.

Thanks for your question.

Overnight Income comes with five unique and private methods that can all be cashed out via PayPal, Bank Transfer and sometimes BTC (I can explain further upon purchase). I always have my system up to date so that customers can make the most money possible. The customer payment proofs are all legitimately earned with the methods. Overnight Income is HF's longest running monetizing program for a reason.

Hi, I was interested in buying this ebook, but remain skeptical (for obvious reasons all of us understand lol)

May I ask why you tend to ignore some less positive reactions from customers? I was planning on buying 1 of the 2 bigger packages to get support, but then I read that people don't tend to get the support they hope for.

I do not ignore customers. Everyone will be attended to. Sometimes I am offline or helping another customer and I explain to every power package customer that I work on a 1-1 basis and we schedule an appointment for which in that time i help set it up with them. ?

There are five methods that all range from- Beginner
- Intermediate
- Advanced

However this is how I would rank them based on effort and time. Anyone can do these methods without prior experience. Plus, if you opt for the packages that include support I can go over it with you so that you can set it up properly to start earning fast.

You can view the packages and all the features here:

I will be purchasing via Bitcoins, before proceeding I have some questions.

- 1) What are the withdrawals options other than Paypal I have in this system/method?
- 2) Does it requires any other investment for quick earnings/advance method and if so, minimum how much?
- 3) If I purchase Power Pack, I will be getting version 3.0 for free of cost?

Looking forward

AliceAllen - April 15, 2017, 1:02 am

thinking of buying this, added you on skype.

EDIT: Ok, this is a HONEST review. I hope this wont get blocked for "sales trash".

So I bought this e-book. Firstly, I have seen most these methods before, in other e-books and websites through Google. I think it was 2 methods I've not seen before.

I got 50% of the purchase which is equivalent to about 24 dollars, which you can earn back fairly easy but with some effort.

If you've already bought a similar e-book, dont be suprised if they have same or close to same methods.

You can make money on this, absolutely. But it is not "100% unique", nor "five private methods".

4/10

Might EDIT again, TS will help me with some setup tomorrow.

It doesn't just include selling there are multiple forms to earn.

There is no minimum withdrawal. When you earn you'll be paid. ?

Hey, thanks for taking the time to post. We can get things cleared up for other members as well.

My method is on sale, so that's why it's so "cheap", though there's nothing cheap about this. I teach 5 methods in this system that are all adaptable, meaning they aren't the same thing every time. Members can deviate from the original method to something else taking the same principles. Therefore the methods don't saturate.

The methods range from Newbie friendly to advanced. Since you're already earning a decent sum online you'd definitely benefit from using the advanced methods.

No there is no investment required but you can choose to invest if you want to earn more/faster.

Plus, I'm always updating and keeping in constant contact with customers via email. ?

Firstly, I appreciate your time answering and detailed!

What package do you recommend me? I guess all are different. Power Package?

Do you help setting things up via Skype or? I see that you use Paypal, Is there a risk getting chargebacks?

Like i said, appreciate your time and answers ?

It depends,

The Value package comes with every method and is the cheapest. The Value package doesn't come with support.

The Elite packages comes with PM support and Power package comes with Skype support.

There's always a risk with PayPal chargebacks but it's not common for these methods at all.

Does a method such as this require a PC on at all times and/or does it require a specific set of requirements beforehand or is it just a pickup and go method.

I'm a college student and me really, really need to make some extra cash for paying for my driving lessons and bills etc. So something like this could be a worthy investment, but only if I can make back what I paid for it and guarantee it.

I dont mean to trash your thread but I think the main issue here is that customers are not getting the support that was promised. I would like a refund please. I've had other buyers from this thread contact me as well saying they have a hard time getting support after days of reaching out. And judging from how it took days to get you to view my PM after you said you would check twice I can only assume I will have the same experience. I would have loved to have been successful with this method but the coaching that was promised is not being provided. I will happily update this post after I have been refunded if everything goes smoothly. Thanks

REVIEW

Before I begin I will say that I have been more than patient with the OP and others are having the same issue I am having , some have even contacted me saying they have the same issue of the OP neglecting his buyers. If you read through the thread you will notice several people saying they are not being helped as the OP promised. I bought this product over a week ago , I bought the highest package that included the one on one coaching , I have received ZERO help or coaching. I had to ask the OP MULTIPLE times to add me on skype and he finally did after I asked for a refund. Even after he added me on Skype he has not replied AT ALL. Even though he has been online since , no reply. After I asked for a refund again he suggested we set up a time today to do the coaching and he failed to meet that arrangement. Please REFUND me & anyone else who you neglected to provide the coaching and support you promised.

PROOF:

PM History , Proof that we set up a time 3 days in advance to do coaching. He also agreed that if the arrangement is not met then I am due a refund - <http://prntscr.com/f8a43l>

Proof other buyers contacted me with the same issue - <http://prntscr.com/f8a4xv>

Proof he never responded on skype after days of reaching out - <http://prntscr.com/f8a6i6> ,
<http://prntscr.com/f8a6pw>

CONCLUSION

I am due a refund , you invalidated your 45 day "try it first rule" when you mislead buyers about your service and lied about your product and service. I am willing to work this out with the OP , If we cannot come to a solution that ends with me being refunded and or compensated for my lost time then I will pursue this dispute via Paypal and via HF disputes. Thanks

UPDATE: The seller issued my refund.

UPDATE: The seller issued my refund.

I've had the ebook for 2 weeks or so, still no support via skype :(

And I really need some help to get this going, i've tried myself for over 2 weeks but without results, I tried to message on skype but no help...

please let me know if you can help me out to set something up otherwise i'll have to ask for a refund too.. I paid for full support + skype .. :(

zephyrs - May 19, 2017, 11:32 am

What would you estimate the saturation level to be, percentage-wise?

kiradori - May 19, 2017, 12:03 pm

I'm coming up on day 3 with no response. Certainly a lot shorter than a lot of you but judging by the posts addressing OP's responsiveness, I'm concerned that this might be a thing for me as well. Maybe some buyers who are currently working with OP can help shed some light? Like it was for a lot of you, the support was the selling point for me, so the possibility of going without it is a concern of mine

The methods can't be saturated because not everyone is doing the same thing. In the eBook I explain further. ?

(May 19, 2017 03:59 PM)KittyWitty Wrote: [\[CITE\]](#) Hello is this legit. How does this work?
Yes this is legit.

The methods involve five separate money streams that I personally use to make my income. I call it "overnight" income because when I first started using these methods I saw money in my Paypal overnight after setting it all up in just 30 minutes.

All these methods are 100% legal, moral, and risk free. They can help you start earning actual money online in as little as 12 hours.

If you have any further questions, feel free to contact me anytime.

Thanks!

Sent you a new PM regarding a refund, i believe the skype setting up its out of hands now many people asking for the service that its not given,

and as said before, we are not worry for the method to be workable, we are most about the set up properly via support

Thanks.

i just wanna ask some question.

1) if you succeed in using this method, and get rich, why are you making this method public to anyone else, and make people buy it? you can just sit at home and watch your money increasing

2) why you want to share this method to people while you make your money making less effective? (if more people use this method, then the money making will be less effective because more people know

1) The method I use isn't specific to one idea, there are so many ways to branch out and make it your own.

For example. If I owned a successful coffee shop and taught a class how to do exactly the same thing will that affect my business? Not one bit. ?

2) Doesn't affect my setup whatsoever. This isn't like what the other guys are selling. No gimmicky "methods" I teach the multiple income streams to make thousands of dollars a month. No fuss no funny business. ?

As said before via PM i prefer my refund, i know you have word and the methods give you profit enough to cover that, you should redo the whole concept as said before with people helping you out with assistance things,

Thank you.

So, had to edit this one since i saw this: [Got -Rep from Him](#)

Well if you ask me, i saw you did the same with other user that was refunded, the things its that yesterday i sent you a PM regarding my refund, here: [Heres the PM](#) so that being said i sent you a PM to solve it yesterday and you didnt reply to me, you take the chance and put the neg rep to everyone who ask for their refund.

But over all your pos reps you have several neg reps regarding the same problem or issue we have, wanna see?

[Bad Rep 1](#)

[Bad Rep 2](#)

[Bad Rep 3](#)

[Bad Rep 4](#)

[Bad Rep 5](#)

Now that you see, you got to be less selfish and make a good product and give the same type of support, if youre supposed to make much money, then grab some people to help with and these things wont happen again.

Guys think twice or this guy might neg rep. since he cant afford a constructive criticism without feeling hunted by everyone.

Be Serious:

Now its Monday and still promising support, how many days of the week you need to DONT give

support?

Well, you have plenty unsatisfied members without support there (asking for a reply)...you gotta act fast or just believe you just sell and never give the skype support.

P.S. dont hesitate on closing the thread again if you feel hunted, people are looking clearly now.

Hes not honest and doesnt GAF of giving support to buyers, so for that eludes giving refunds

P.S. ill be posting until he takes care of people needing support or he close the thread like he usually do (since he cant handle the truth)

My Experience:

It has been documented in the forums that MilkBone and I were to have our 1-on-1 via Skype today.

Unfortunately, there was no response to my communication on Skype. After an hour and a half of waiting, I think it's safe to say that I will not be receiving the coaching that I had paid for. I wanted to believe and give the benefit of the doubt, but all that ends now.

Consider this a formal request for a refund. I'll be taking further action via Paypal if not handled within the next 24hrs.

TL;DR

Was a no-show to our 1-on-1 coaching session. Want my money back in 24hrs

Once again 1-on-1 coaching session got blown off and didn't happen.

To anyone thinking that you'll be getting support by upgrading your package or by getting the top package outright, hang onto your money.

Elinked - June 22, 2017, 12:35 am

Okay, so firstly this is complete bs, mainly because its only going to work for people from UK, USA and Australia which I'm from neither, I bought this trust in your word that I could make money....

I have tried your Amazon techniques Which is a complete waste of time for me since I can't signup for amazon.com only for Amazon.com.au.

I've looked into the "Seo" I already run a company for that, which generates money fine on its own.

Realistically you need to say its "NOT" going to work for everyone due to there country and what they do and don't have access too.

If you can provide other ways that I can generate money since I'm from "New Zealand" and at least make the money back I used on purchasing this Guide, then I won't request a refund, but at this point the guide is very useless, Same goes for ebay.

Can you please PM me your skype so I can talk to you about this? Is there no support for the value options, and what are the bonuses that are offered? How do we know you will refund us (are there any terms of refund?) I.e. do you use an escrow or something, or do we have to take your word for the refund?

I know for a fact that some of the proof of earnings that you mention in this thread are in fact used for other courses on other sites. For example, the "newbie earnings " image has been used by another seller selling another method on another site. I don't want to link it to give it more sales or traffic, but if you search the username 'mitziloch1' it should come up. Which has kinda made me doubt a bit. Lemme know your skype so I can add you and get this all sorted out!

Edit:

Tried to purchase the most expensive package, but just as I pressed checkout Paypal displayed an error saying "Your transaction cannot be completed. Please return to the merchant." and when I refreshed the page it said out of stock. This is a strange website, where they sell the same unit twice, even when a transaction is already underway. Usually your unit gets held off at least until the transaction is completed or aborted, neither of which applies in my case. Please PM me your skype so I can get this worked out ASAP!

1: Following the terms of sale you're eligible for a refund after 45 days if you prove you were unable to earn with the methods.

2: Whoever it is is stealing my images. Please report back to me with the link so I can take appropriate action.

3: Someone checked out but didn't complete the purchase. That's why it didn't work. It's working now. Please try again.

Because it's very versatile. Unlike the other methods offered for sale here I teach you the basic principles for succeeding with making money online using specific techniques. I show you what I did and show you how you can do something different and make it successful too. If you purchase the power package I can help you set everything up one on one. ?

Would love to get my hands on it.

Doughter needs braces.. So yeah quite crappy situation.

Ive read that people are complaining that UK and USA are the best spots to be located.

But will it work in Estonia, Europe? Is it efficient enough here?

Really dont wanna waste my money on something thats going straight to trash and dont have nothing to do in my country.

If someone who has bought it can give me feedback.. that would be awesome

UK and USA are the most popular spots but it's not what makes the most money. You can make money from anywhere in the world but you will mainly get paid from UK/USA customers.

This week so far:

I made ~\$240 this week with the methods in this ebook. \$80 is from the eBay method included in

the ebook which is quite good as well. Overall id recommend to those who need to make a easy moderate income.

I own a website that already makes me \$2k monthly but I was looking for more another way to make more money, I went ahead and purchased the ebook 3 weeks ago.

Needless to say I was able (with an investment of \$60) able to earn more than \$6,000 with the methods alone just this month.

Here is my Paypal balance at the moment:

Milkbone was very patient with me and helped me set up all 5 income streams and mentor me with my existing website. Overall the \$90 for the ebook + mentoring was a complete steal and was the best purchase I ever made on HF.

P.S. the method i used to earn was method #4 and #5. ;)

\$155 made in 1 day with his method, I made another \$10 with the amazon method included which isn't much but hey at least it means there's something there to be made as well!

Couldn't be more ecstatic !

Sure, I sent you a PM but I'll go ahead and write it here for anyone who has the same question.

Overnight Income is a staple in online marketing. I clearly outline what's making money online and show you how you can get from point A to point B. I make it sound easy because frankly it is. I mean, you can surely google a way to "make money online" and it will work, but it will be painstakingly difficult because you don't have a mentor to show you the way and what's "hot" right now.

When purchasing Overnight Income you'll not only get access to top tier internet marketing methods. You'll have direct contact with me so that I can personally help you with your ventures. ?

is overnight income still going strong in late 2021?

Is there any risk to this method NOT working/becoming saturated in the (near) future....say with in the next 12 months?

I know you've probably answered it a dozen times by now, and i only looked through the first 3 pages of the thread; but about how much time should I expect to invest each day (for the first week)?

Okay, last question: If one purchase the lowest cost option your post says theres no support, does that mean if one needed help with any part of the process they shouldn't expect a reply if they contact you with a problem they are having?
