I have mentored a lot of people already, some showed big success, made someone earned his first \$50, and the other one \$20, and the other one \$15, it is cool to see i am helping a lot of people!

This motivates me, the only thing i don't like is that some people don't show appreciation, which is kinda sad, but i will have to deal with it!

How long have you been on HF?

I've been on hack forums a little over 3 months, so I'm still a little bit new.

Why do you wanna learn how to ewhore?

I'll be honest, I just want to make some extra money and hopefully make enough money to buy myself a new laptop. But the main reason is that I've been looking into e whoring for a long time but I never really got into it since whenever I would try I would fail miserably. So hopefully with a mentor I will actually make money off of this.

Are you respectful?

I believe myself to be respectful.

Aren't you gonna give up?

I will try my best to do this and even if it doesn't work out the first time I still will try. I don't plan to give up so I hope you will accept me
