Information and Details about CustomCheaterCheats

The reason why we have 0 Bans is because we don't us an Injector, That's right we no longer have to use one and this means BE cant detect you cheating no longer because BE Globally Bans by Signature Scans through your games memory and bans for "Injecting" Cheats into your Games Memory.

**CustomCheaterCheats** - July 23, 2015, 4:09 pm

well....that was odd.....
