dopepizza - July 25, 2015, 10:02 pm

TheMostDopePizza's vouch!

I can say one thing to you all, FamousHater is a legend, first i had to use paid sucky programs to crack, now i can use SentryMBA with unlimited options, FamousHater is online 24/7 for you to answer all your questions!

what does he provide?

full mentoring, SentryMBA configs, combolists, and proxy's!

The things i listed are high quality from top to toe!

everything he provides works amazingly well, and he will give you a link to his archive and i have to

say, damn his archive, it is amazing, so many configs and everything you need!

What have i learned?

I have learned how to use SentryMBA's, different saving methods, about a lot of configs, the way sentry works the best with your computer & more!

Why should you learn from FamousHater?

Because this guy takes the time to explain everything into it finest details, this guy spends a lot of time answering questions and telling you how sentry works!

First i only got retry's when trying to crack accounts, now i get accounts hits all the fucking time!

Does this work for mac osx? Yes it does, you can run windows via a window, if you need help, PM me, i can install windows in a matter of seconds for you or you can run Sentry in wine for mac. which is easier!

Vouch for this. I knew how to crack at first but always get 0 hits and numerous fakes as well as banned proxies. After using his service, I am now getting a lot of hits and get a high quality support from him. This is the best service of this kind here in HF. I will personally recommend FamousHater than any other person who offer the same service.

© **ÉliXéd** - January 4, 2016, 3:02 pm

Vouch for this guy, teached me all the way and gave some tips. He is the perfect one for this.

Gallant - January 5, 2016, 4:04 pm

Omg!!

REALLY! HUGE! VOUCH! to my bro FamousHater ^^

Today is my first day at learning how to do account cracking and i was able to crack during his session about: 97 spotify account + 2 Facebook accounts and Yahoo accounts also still cracking some zenmate accounts!

He have the patience, the tools and the ability to quickly teach you how to crack almost all websites and accounts.

All what you have to do is pay attention and follow what he is gonna teach you.

And xD he gave me a free account on a random website.

PS: While typing this vouch i've got another 5 more accounts on yahoo and 3 more on facebook which is really working and the list is still growing up.

xD If i bought his service he wouldn't help me like he did!
No one ever help like he did! seriously vouch big time! ?

You've earned my total respect. ^^ ?

FamousHater - January 7, 2016, 12:59 pm

(Jan 7, 2016 12:53 PM)Arizonalce Wrote: [\[CITE\]](#) Your basically selling a package that you can get everything for free.

All the configs you post about are leaked, you can get daily fresh proxies from:
<http://sslproxies24.blogspot.co.uk/>

It's as simple as getting a few dorks and running SQL Dumper to get combos.

It's really not that hard and all public knowledge lmaoAll your post did was prove your an idiot. Don't see anyone above saying configs are public. I give away other configs during the session. I don't post everything I teach so don't assume you know everything! People are paying for my time and knowledge. Configs are a bonus. If people just wanted configs then they would just pm me asking to buy the config(s)

If you took time to look u would see I'm offering this service for free right now.

Funny you say this as I remember asking you to make a config for me as you offer the service and u said just go on crackingking.com. So proves u can't even make configs. Wouldn't be suprised if you sold public configs.also tell me where I listed what configs are included?

Nice sales trashing btw

[FamousHater](#) has personally mentored me in cracking with century in the past. I had absolutely no knowledge of how to use it and he taught me everything that I needed to know with in minutes. He is by far the most skilled cracker that I know of and is my go to man for anything dealing with cracking or accounts. This isn't one of those "paid vouches" or I'm vouching because I'm his friend; he has no idea this vouch is coming. I have personally seen first hand what this user is able to do and his teaching methods and I can assure you that you won't find another user of this quality to teach you everything that you need to know about cracking. HUGE vouch for [FamousHater](#) and I wish you luck in your ventures.
