Thread: [Cydia Tweaks to install](#)

Satan? - July 26, 2015, 8:33 am

I am running 8.4 jailbreak and I wanna know some cydia tweaks and stuff to install

Longdover - July 26, 2015, 3:01 pm

SafeTexting is a pretty cool tweak to download!

Phantom for Snapchat - Save snaps, view people snaps discreetly, spoof your geofilters, etc.

Instagram ++ - Save videos, photos, captions, bios. You can also view Instagram in a different way.

LocalIAPStore - Get free in App purchases.

Oh also double click on clock on lockscreen to enable wifi

[EDIT72628]\~ :

Guys I have found new tweaks:

Cachecleaner: Delete caches via settings app-> general -> usage!

Non-Stop Music 8: Continue playing songs after resorting where it left. Tried on: iOS 8.4 - stock music app. Use linktunes or safari downloaded +, to import.

Moviebox 3 enhancer: You need this if you use moviebox! Fixes issues in the app and a lot more!
