Thread: [How long has this ignore feature been here?](#)

I know in the past adding someone to your ignore list just meant you couldn't PM them but when did it come in you couldn't view their full profile? Just curious.

It's pretty cool tho.

I think it happened sometime it early 2015, probably 5-6 months ago.

Sweet thanks. I like it.

I was vac banned during this time which is probably why I missed it.
