You can't even use it at all by default on Chrome, even if it's signed.

Try HTA.

well thankfully Flash isn't dead yet and probably won't be for at least a few years
though it does seem to be dying
as long as stuff like Twitter and Twitch need it the 0-days are still gonna be valuable

what is HTA

That's true. Flash is terrible and should die. Browsers might disable or make it harder to run sooner
though.

Google it kiddo.

Flash is definitely still alive just got to find the right russian who has what you're looking for ;) the
exploit is around \$500 but please don't pm me about source just got to look around..

UnKnOwN333 - August 21, 2015, 1:28 pm

use flash hackingteam its best exploit for infecting :)

I'm sorry. This is against the EULA so I can't, in good conscience, give it to you.
