Thread: [Searching HTTP and IRC botnet - need help with finding right botnet and setup!](#)

suresh6603 - July 28, 2015, 9:20 pm

Hello,

im on search for an IRC Botnet (or also HTTP would be OK for me).

I would use it in most cases for DDOSing. Need a STABLE botnet and some help with setting up. i never setup before a IRC Botnet.

Are there IRC Botnets with spoofed attack methods? To dont "burn" the bots too fast?

If anyone can and want to help pls write her or hit me up with a PM. Thanks.

PS: I am willing to pay for a botnet / webspace / support if needed

soulyuki - November 3, 2015, 9:06 am

HTTP is right for you, it's stable and can be used for MANY thing. Message king tut if you're interested he sells Gorynych. It's a really good botnet

Sheeple - November 3, 2015, 9:26 am

IRC Is better for just ddosing I think, the only problem is getting bots

The way you communicate with your slaves has nothing to do with the way the slave performs any of its actions.

^

Only useful post here.

hackhustle - November 3, 2015, 12:03 pm

i can help you. pm me and we can discuss

soulyuki - November 3, 2015, 11:41 pm

Gorynych botnet is the best (HTTP) Hit King Tut up for setup and info etc. He has the legit version none of that cracked bullshit

It's free.

Evax - December 30, 2019, 12:15 pm

I would go for azorult or smoke loader. But you should create your own http botnet its easier than you imagine.
