Thread: [\[VPN\] Need A FREE Vpn With open Ports](#)

shabbu.shah - July 28, 2015, 10:32 pm

My isp blocked ports i need a free vpn. or you can help me on portforwarding. i can only open port 80 through my router.I have tried several others but none of them seem to open.

I HAD TRIED EVERYTHING

MY RAT IS WORKING PERFECTLY BECAUSE IT SUPPORTS Automatic Port Forwarding using UPnP

You should just spend \$15 and get a lifetime VPN here: <https://ra4wvpn.com/>

Seems kinda fishy. Why so cheap? I'd prefer a name brand just to be more sure they're safe.

well it's not like a top member who ran a VPN hasn't fucked everyone over before, right
cough anonymous cough

They have been running for a few years now. It works and all other VPNs out there are expensive af.

Vile Soul - July 29, 2015, 6:54 pm

Free VPN normally do not allow open ports because then it leaves the other portions of the server

vulnerable. That and they know what people will try to do with them.
