Seems like your site is not really functioning, your service looks amazing though GLHF. It also says Unlimited Slots, surely the slots cannot be unlimited because of the limit of RAM?

Anyways would like to order manually if possible.

We offer full bungeecord and if need be we can set it up for you, if so the setup fee is \$3 per server you have linked. We don't intend to bring the prices up any time soon. and if it does happen and you already have a service, we will keep it the same price for you until your service ends.

Honest somewhat vouch:

The servers are great for the price,
Only downside is the slow costumers support.
However, The support they give is good. So that balances it out I guess.

NEW WEBSITE HAS LAUNCHED!

Mr. Wallstreet - November 7, 2015, 10:26 am

I love the new website. Good job buddy.

j10max - November 10, 2015, 8:47 am

Website needs some professional improvement, looks like a new web developer did it. Also, the panels need to be incorporated with the main theme.

Nice new design but you still have tons of spelling and grammatical errors...

Sc3ptical - November 13, 2015, 12:39 pm

Huge fucking vouch for this service I can't deny how much work and effort ChromeProducts has put into it. I purchased I have experienced no issues.

Grim - November 13, 2015, 12:40 pm

SIM-1472133 - November 21, 2015, 1:03 am

Service is still running strong!

Genicus - November 24, 2015, 4:06 am

This is the best hosting ever, if you think not then you obviously have down syndrome.

SIM-1472133 - November 24, 2015, 8:09 pm

An issue occurred with a cron job that took place yesterday, some servers got suspended because of it. I have manually gone through most servers and activated them, if your server is suspended please create a support ticket or contact live chat. We apologize for this and this issue should not happen again.

Annoited - November 25, 2015, 5:36 pm

Going to go ahead and buy a server soon!

?aber - November 29, 2015, 9:24 pm

Please be advised that all services and logins will temporarily go down whilst accounts and data is been moved from: <https://www.yourmchosting.com/Billing> to: <https://www.clientbillingcentre.com>

Once the move has been completed all user information will be the same and all services will reactivate. Please be advised that all services will now be billed through:

<https://www.clientbillingcentre.com>

and all relevant billing information will portray Root Layer Technologies.

All services will however remain a service of YourMCHosting, now a division of Root Layer Technologies. Jesse Ryan will be the Operations Manager and continue to run and provide support for YourMCHosting.

Thank you for your support and understanding whilst we move your service. All services will remain on the same box (node) for now, however expect a change of IP and Box (Node) within the next month.

For those that are concerned that your service will be deleted, i can safely say that YourMCHosting will not change it's way of trading. As I will manager the operation.

Alright so I ordered 5 of chromes severs for a bungee cord server I was making a while back when YourMcHosting first started. Here's what I got to say about it.

Everything was fast and smooth. I had a few hiccups but his support team was able to assist me very fast. The company really cares for their clients and are very supportive. I got everything I paid for if not more than I needed.

I no longer run my server anymore but when I did my experience was wonderful with YourMcHosting.

I'd rate them a 9/10

SIM-1472133 - February 23, 2016, 11:17 pm

<https://www.clientbillingcentre.com/announcements/3/New-Account-and-Security-Features.html>

Root Layer Technologies is excited to release its new invoice designs that have been crafted to provide our customers a much more clean and professional layout that is easier to read and understand. Customer's invoices from today will experience a fresh new design and an easy to read layout, providing detailed information about the purchased product/service that has been purchased by the customer.

Furthermore Root Layer Technologies prides itself on high level of customer service that we provide to our customers, as well as keeping them and their data secure at all times. To keep with our high level security policies and procedure as well as our high customer service standard we have implemented two (2) new security fe0atures, not one but two new security features.

The first: "Account Security Pin" allow you the customer to setup a security pin that can be used when accessing your customer account, this adds a second layer of security on top of the first level "password" security measure.

The second: "Support Security Pin" from now on when requesting any type of support whether it be Live Chat, phone support or skype you will be asked to provide your "6" digit one time use support pin number. This is required before a staff member will be able to access and discuss your account with you.
