Thread: [\[10 CONTROLS\] \[CUSTOMIZABLE\] MetroTheme](#)

Yamatano - August 1, 2015, 1:10 pm

? Metro Theme ?

Hello, HF. MetroTheme is my first theme. Actually, it have customizable 10 controls. I will work on create some new.

BEFORE YOU HATE ME, READ FAQ!

Q: Why u modified some themes?

R: I am new in create themes, I want to check my actually skills. Maybe soon, I will create theme without modify other themes.

Q: How can I add controls to my Toolbox?

R: 1. Go to Solution Exploler

2. Click PPM on WindowsApplication1 (other, if u changed name)

3. Add Class -> OK

4. Copy ThemeBase 1.5.4: pastebin.com/axvdEAJc

5. Create new class

6. Copy MetroTheme 1.3.2f1: pastebin.com/G9hauUHJ

Q: How can i modify controls?

R: [NOT FOR ALERTBOX AND TABCONTROL]

1. Select control

2. Go Properties -> Misc -> Colors

3. Get cursor on TextBox, click ellipsis

4. Now you can modify controls!

[ALERTBOX]

1. Select control

2. Go Properties -> Appearance -> BackColor

3. Change color

4. Enjoy!

HAVE A NICE FUN!

[img]<http://wnko.pl/i/capturgvg.png>[/img]

there is a screenshot for anyone who is too lazy too open it in a new tab :)

AKA- ME xD

Not for nothing, but the color could have some work done to it. Other then that good job.

You should give credits to the creators of the themes that you've used here.
