Thread: [\[Contest\] Upgrading one Normal to l33t](#)

64-Bit - August 2, 2015, 1:50 pm

I will be upgrading one normal member of the community to l33t.

If you would like a chance to win post one reason why you like HF. Any posts that are deemed to be of low quality will be overlooked. In the future there will be further contents for l33t and ub3r members. Entries will be closed 5/09/2015 at midnight GMT+0.

Scymo - August 2, 2015, 1:51 pm

thanks poppadomus for hosting this contest, good luck to all who enter.

unknown321 - August 2, 2015, 1:51 pm

id like to enter this i like hackforums because of the marketplace

Thank you for pointing that out?

Balding - August 2, 2015, 1:53 pm

What a fuckin baller dude. Thanks for hosting this.

Ki?ds? - August 2, 2015, 2:18 pm

Hey Poppadomus seen you around a lot lately, happy to see you hosting this contest and I'd love to enter.

Very kind :)

EDUB - August 2, 2015, 3:10 pm

Het, i would like to join your contest.

here's why, I have been a member since 11' and i have gave back to the community and been all around the forums. From hacks to deals. An staying active. :D

unopie - August 2, 2015, 3:11 pm

I will enter because I could buy myself leet, but I am too cheap.

Sleeping With Sirens - August 2, 2015, 3:12 pm

I like HF because it's a business opportunity for me, and being L33T will help out with sales.

Thanks!

atzo - August 2, 2015, 3:20 pm

First i want to say thank you op :)

I like HF (mainly in the cs section) because its nice to see what people post, either if its a hack getting detected etc.

I guess i like the kinda people here although some can be cancerous.

If i recive this l33t, i will love you 4ever :)

Internet Explorer. - August 2, 2015, 3:21 pm

Good luck to whoever joins this!

lipuHF - August 2, 2015, 5:35 pm

I'm not really expecting to win this but here goes nothing ^^

It's difficult to point a specific reason why I like HF. It's more a general thing I guess. I like the community, the fact that even though it has 2 million members, it still feels like it's a small group where you actually know a lot of people and have known them through the years. I like the diversity and range of topics, you can find just about anything here. I even like the drama lol. The fact that you never know what to expect when you open some sections and forums, and what's gonna happen next. I really like it even though I spend more time reading stuff than writing and participating. ?

SentByGod - August 3, 2015, 12:36 am

thanks for the contest!

this forum is the only one i been using since i registered. best one i learned so many things! and i still think i could learn a lot more!

thanks in advance ! gl everyone.

Jesse Pinkman. - August 3, 2015, 12:47 am

Hey, I would love to be l33T

I like hack forums because I genuinly like to help people, I'm really good at CounterStrike so I can offer lots of help in the CS section, and I do! I think being a L33T member would make me look more trustworthy and overall helpful!

Thanks for this opportunity

v47093 - August 3, 2015, 12:53 am

The one who got up to l33t by you must be a lucky fellow. That's why I join, thank you for such contest. Very few hosted such opportunity for newbie

FSBN - August 5, 2015, 3:00 pm

Hi, I would like to get l33t.

Why?

I want to sell HQ products but do not want to invest money for l33t.

I also like to help other people :)

Neos07 - August 5, 2015, 3:07 pm

Thank you for the contest.

I think I help HF members .

Vector™ - August 5, 2015, 3:18 pm

Not entering to the contest, but good luck to the winner :)

Satan Santa - August 5, 2015, 3:48 pm

I like HF because it is a place to chill, learn new things about hacking, and make some friends. That's pretty much it :)

Good luck to everyone else who entered.

Thanks!

Watch out for this guy, next Bill Gates gonna make Billions off this business opportunity called "Hackforums".

I will go ahead and enter this contest just so this guy has less chances of winning.

I like HF because it's cool.

version1 - August 5, 2015, 4:15 pm

Hackforums is a decent community with some friendly users.

Appreciate what you are doing, if you'd like to upgrade me that'd be great.

Quinn. - August 5, 2015, 5:20 pm

I like HF because of its vast amounts of knowledge in terms of people and guides. Always having a good laugh on this site.

laklaker - August 6, 2015, 2:14 am

Can I still enter since you still haven't pick the winners yet.

Why do I like HF?

It's because of the community it has. I've been here for 4 years and I saw the HF community became bigger and popular. And this is the first forum I have joined that I earned my first online money.

Thank you for your kind act with this giveaways! And goodluck to all who joined!

MisterPonzi - August 6, 2015, 3:09 am

Well, apparently winners aren't picked yet, so I will give it a shot and make an entry.

I hope it will count.

If I have to pick ONE reason, it will be this one.

What I like about HF is the marketplace.

I like the variety of products that are being offered and sold and I consider HF to be a goldmine for those smart enough to take advantage of it.

DuguWudi - August 6, 2015, 3:51 am

HF, is where I buy my stuff here now mostly. Its like a second life to me.

How do I even upgrade you.

Dream - August 6, 2015, 4:17 am

I would like to enter.

The reason i want to win is because i am enough years on hackforums and the normal user features are very low, l33ts have many useful features that makes it more easy.

Thanks!

DuguWudi - August 9, 2015, 8:51 pm

Ehhh, I dont understand this question??

Oh I'm only epic.?

BiometriX - August 10, 2015, 7:43 am

I like HF because here you can connect to people with the Pentesting stuff, earn money and can educate yourself pretty good. Thanks to all HF members for that

Disparity - August 12, 2015, 3:01 am

Hello there. My name is Disparity.

There are a few reasons I like HackForums, the primary one being the numerous learning opportunities. In fact, that's why I originally stumbled onto these forums in the first place.

I specialize in Website Hacking, and I have spent many hours studying servers, website infrastructure, the many languages which power websites (in fact, I'm currently learning PHP), different vulnerabilities and exploits, and more.

That's also one of the reasons I stay on here. To learn. And I must say that I've been rather successful, somehow finding myself in [Elusive](#), a group full of geniuses, a while back (I was the noobie). I got loads of useful information, but do to school, I more or less had to withdraw.

As I previously mentioned, my own learning is only one of the reasons I stay on here. Over time I have developed a true love for helping others learn, especially in the main field which interests me. I've responded to an absurd amount of threads offering my assistance or constructive criticism and I've loved all of it.

I've dedicated loads of time posting on others threads, and I posted my own [massive guide on beginning to hack](#). I plan on posting another on the topic of XSS soon as well.

Unfortunately, my time on here hasn't always been the brightest. A while back I posted on a thread just like this. I won it! However, after a week or two of anticipating my upgrade, and after a week or two of bullshit from the OP of the giveaway, it turned out to be fake. This caused me to leave HF for a while, but I'm back now, and I'm back for good.

The primary reason I want the upgrade is so I can post in [SRPP](#). All the other perks come as a bonus to me. And believe me, I would have upgraded a long time ago too. However, I'm a student, and a broke one at that. I've even tried to make money on here, but that didn't work out so well.

Regardless, thank you for the opportunity OP. Have a good one.

coolerneo - *August 12, 2015, 9:04 am*

I like HF because there are hundreds of coding/hacking topics/tutorials where I can learn, also community is pretty nice

Witz - *August 12, 2015, 9:13 am*

I like the Hackforums because of the great programs that are created here. eBooks to learn. Friendly people that are responding to your problems/questions.
