Thread: [Any working minecraft alt checker nowadays?](#)

McDolands - August 3, 2015, 8:56 am

So i really need one alt checker that actually works, egg cracker, check mate and catchcheck just dont work for me, if you have an optifine cape checker that will work through emails or any kind of an alt checker pls post it here or pm me

Kanuck - August 3, 2015, 4:10 pm

I want to know if there is a working checker/cracker too. I think mojang have upped their security.

Vaxorr - August 3, 2015, 4:11 pm

I believe eggcrack works fine.
Correct me if wrong tho.

Ethan - August 3, 2015, 4:19 pm

(Aug 3, 2015 04:11 PM)Vaxorr Wrote: [\[CITE\]](#) As my knowledge u believe eggcrack works fine.
Correct me tho.
what? and OP Hal has one i believe on his website here <http://halalaboos.net/projects.html>
I haven't tried it myself.

I haven't tried it myself.Nvm that Mobile keyboard... fixed.

Kanuck - August 3, 2015, 6:30 pm

What about crackers :o? Seriously, everything is outdated.

Zerkerbros - August 4, 2015, 11:12 pm

check mate works fine man got 200 accounts from a list of 1k

McDolands - August 5, 2015, 6:20 am

Check mate and egg cracker do not work for me and then halalaboos thing doesnt even let me download it

crown - August 5, 2015, 4:44 pm

What seems to be the problem with CheckMate for you? Is it just not processing the accounts or what?

I ask because CheckMate has never caused me any problems. It works just fine.

Lizard. - August 5, 2015, 10:26 pm

EggCrack works great for me.

McDolands - August 6, 2015, 2:25 am

Basically, it gets to 16 working ones and then it stops working, I even add elite proxies but it still wont register them and just says each one doesnt work

Shmebulock - August 6, 2015, 5:11 am

Do you want a checker for premium or user:pass?

McDolands - August 6, 2015, 6:08 am

i want a checker for email:pass

Shmebulock - August 6, 2015, 9:08 am

There is a tool i am working on. Not public yet...

<http://prntscr.com/81kgc2>

Looks nice! Maybe add in account list support as well instead of having to check every account manually.

McDolands - August 6, 2015, 2:55 pm

What assossa said and also if you could actually some how make this it so it checks if it has a cape of any kind just by the email, I think you would get a LOT of love from everyone, not saying its possible in anyways or its easy to do, am not very good with coding to be honest.

I released the first version!

Check out this: [MineChecker - Check tons of Minecraftaccounts!](#)

SIM-2830142 - August 8, 2015, 1:41 am

Check out this one!

I think its still working!
