Hello, I want to share with you my thread design! It is mostly for eBook like things, you can make it a stresser design if you would like, but you would still have to credit me.

Here is what it looks like:

If you would like to suggest anything, just pm me or reply :)
(Please no hate, this is my first design.)

Outer glow and drop shadow should never be used on the same design.

Good first attempt, 4/10.

A good starting point, you have!

Keep at it, keep fine-tuning your designs man!

You're officially a graphic designer!
Congratulations!

Around the icons you used in the thread design you have first outer glow then drop shadow, that's what he meant.

Yes, I know. The glow is suppose to make it appeal to the eye and the drop shadow is to make it look floaty I guess haha.
