Thread: [KiK Traffic Site List](#)

Erby - August 5, 2015, 1:47 pm

Simple and easy, here's a few KiK traffic sites. Are they saturated? Yes. Got some of these from a thread called 'How To Get KiK Traffic Sites' if anyone cares. And no, I don't have the link to that thread anymore, but it was basically just a small list of sites. Some of them may be inactive, and I tried to get rid of as many doubles as possible.

I still use all those sites to this day, and i've made \$360 for the past 3 days...
You just have to know how to talk to someone.

Might wanna remove kikhorny I've tried using it 3 times and haven't got one message. Used to get so many back then though.

Not a bad list, but you should run it through a duplicate line checker.
