Great beginner help, attention seeking whores, ass kissers, great guides, community gets better every year.

Great place to learn how to make money or maximize your computer skillz.

Omni is the reason this place is the way it is, don't think any other person could handle all the legal issues and whiny bitches on here.

Good job everybody.

I agree. I'm certain Omniscient has to go through countless legal issues, despite the fact that this forum is generally predicated on "hacking".
