You won't even find a good version until long after it's been released on blu-ray.
Look at Naruto: The Last for example. Still no good versions yet, only cam rips.

Happeh - August 8, 2015, 1:26 pm

Did they seriously call a movie Boruto?

Yeah I saw posters and ads for it at the theaters in Japan.

I know a lot about Naruto, watched a lot of fights and such, but strangely I've never officially watched it. I just don't watch it for some reason.. :P

My friend used to tell me what happened in manga back at school, we're both going to different schools this year ;-;

Well sit tight because after I receive my Wireless gaming receiver so I can play Naruto Ultimate Ninja storm 3 on my PC with meh Xbox controller, I'll be doing reviews with the game play in the background. So gg.

I find it kind of nice that they made an "After the fact" movie about continuing the Uzumaki lineage but I also find it disgusting that they are milking a very successful series to death... At least couldn't have they made the name more original...

SH?D? - August 16, 2015, 2:49 am

where can we watch the full movie

Epilogue? I don't really feel like they're milking it at all. All the content after the official series ends has been great.

thanks for the link Gino, been looking for link to watch boruto.

lolada66 - August 19, 2015, 5:40 am

somebody must have cracked it

bluedragonhax - October 4, 2015, 9:44 pm

You can get it in jap. lang and eng. sub but you'll have to wait 5 more days to get it in eng. language

Ran - October 4, 2015, 9:49 pm

So is there still no link for Boruto? I've been searching too and can't find it ;-;
