@FatCatz79 i dont know the link but what are you intending to use it for. If relevant to me maybe we could team up?

@Charlieh114 I'm not really too sure on what I'm going to use it for.. And maybe we could team up if you want. Well, it's kind of obvious what I'm going to use it for. :P Lol

Don't use Dark Comet it's outdated and unstable. Use babylon or njRAT for a free one. But here's a link anyway <https://hackforums.net/showthread.php?tid=2698687>
