Thread: [Are you a cryptocurrency enthusiast? Would you like to be apart of "Crypto"?](#)

zSerity - August 10, 2015, 1:06 am

Crypto is looking for dedicated members who like to freely discuss bitcoin, other altcoins, and anything in between.

We do not care about your current status on HF but rather your dedication and activity towards the subforum.

If you're committed to being active and partaking in our many active crypto discussions, then apply via UserCP and write something small about yourself.

Posting this here in case there are crypto enthusiasts here who don't actively visit the group and crew discussions. I'll be picking 10 people and then closing this thread. ?

I'm indeed a cryptocurrency enthusiast.

I love exploring the advantages and opportunities of cryptocurrency aswell as their development.

Therefore I'm supporting it in the best ways I can. I will send you a join request right now and I'd really appreciate to be a part of your movement.

I don't care about the technical aspects of cryptocurrencies but exchange them on a (mostly) daily basis. Applying anyways.

I deal with crypto currencies such as LTC and BTC.

I have an interest in them and an interest to become an active community member of a usergroup on HackForums.

I enjoy reading news stories about BTC and other crypto currencies as I find them amazing and incomparable to most currencies.

If you wish to know anything else about me feel free to give me a message. :)

Raleway - August 10, 2015, 1:07 pm

I sent you a request via UserCP.

It included a very small read about myself and virtual currencies. If you would like to talk more to me, please feel free to shoot me a PM, I would love to talk.

Hope I get accepted into the group.

Best regards,
Dylan
