To create a header, change the tabpage tag to anything you want.

ILoveYourNaN - August 13, 2015, 10:02 am

Looks clean man :) Great job!

RTEmusic - August 13, 2015, 11:10 am

Hey i don't think you take requests if so please make the NanoCore TabControl

SaketSaket - August 13, 2015, 11:30 am

Looks awesome buddy ;) wonderful share.... Thanks...

ninen2001 - August 13, 2015, 12:04 pm

Was really looking forward to this theme. Very nice looking. Thanks alot!

Adderall - August 13, 2015, 1:26 pm

Nice theme I like the tabcontrol with images.

?Syria - August 13, 2015, 3:48 pm

This theme is epic, Very nice!

Wings_ - August 14, 2015, 8:34 am

How did you put "Home" & "User" there? :)

btw I love your theme, keep it up man! Thats really professional.

Nice one m8, within no time every product in the HF market will be using your themes. I like your work, mainly because they're not all gay dark themes

nuk - August 14, 2015, 11:11 am

I think it looks very clean and well made... thanks for this and GREAT JOB!

Angel - August 14, 2015, 11:34 am

Nice work i'll use this theme

RaStA_ToXiC_91 - August 14, 2015, 2:36 pm

Great job ! He is so beautiful !

?Syria - August 14, 2015, 3:00 pm

Btw is it possible for you to make this in C#? Thanks!

You can convert it by urself. There's lot of online converter out there ?

Cecilia - August 14, 2015, 11:00 pm

C# Version (not sure about progress bar, seems glitchy):

CYNTEX - August 15, 2015, 9:26 am

You make the best themes on HF ;D

Really epic ^^

May i use this in the future

Horray, this theme looks very good, just saw it. Good job man, keep it up.

Looks great Aero, only thing I would change is giving a little more contrast to the ProgressBar, the light color on a white background is a little straining.

AspectModding - August 16, 2015, 2:02 am

How do you add the icons to the tab control bud, I can't see the option anywhere. :P

Add an image list to the project, then link the image list to the tabcontrol :)

Take your images from [this website](#). Custom color : DADCD9. ?

Also, don't forget to put your ImageList ColorDepth property to 32 bit before adding your images.

Thanks guys for all the comments, I'll try to improve this theme as I can according to your feedbacks.

Cr1ms0nTV - August 17, 2015, 5:56 pm

Looking great man, reminds me of the a7x sidewinder song.

ddol - August 18, 2015, 1:51 am

I like the inside part, but the bar with the exit, maximize, and minimize could use some work to fit better with the inner.

Just my two cents.

Strintent - August 18, 2015, 2:15 am

This is great. Will definitely use it. Will there be more features added in the future?

It's the default windows bar, (I'm using windows 10).

Polymeth - August 18, 2015, 12:56 pm

Such a beautiful theme, gz.

Good JoB!

Thanks Dude!!!!

Nice work =D HAHAAH.....

Exigo - August 18, 2015, 3:04 pm

This is a really nice design, great job, loving it!

Nullout - August 19, 2015, 3:20 am

I used this for my latest project, works perfect!

Good job on this. :)

.cYRil. - August 25, 2015, 6:15 am

I Really like this TabControl it looks really nice

CYNTEX - August 25, 2015, 9:36 am

Just love this theme ;D ^^

Naywyn - August 27, 2015, 3:31 am

Hey there, I'll release an update when I'll be back from vacation.

zurasaur - *August 31, 2015, 3:12 pm*

Looks brilliant man, thanks for sharing!

Simpletube - *April 23, 2016, 4:06 pm*

How to you add Home or the text user?

VisualSoft - *April 24, 2016, 2:31 am*

the theme is really slick and nice
really good share.

NullEx0 - *September 4, 2016, 1:54 pm*

I know it is an old post but I like this theme and I had converted it to C# but i can't use any link at this moment(I'm a new member). If Naywyn want it I can give the link to him ?

Gørilla - *September 4, 2016, 3:57 pm*

Very clean theme my dude. I'm impressed.

Krychek - *September 5, 2016, 7:19 am*

I love this theme :O

Great job, Naywyn!

Streetlight. - *September 6, 2016, 9:52 pm*

I like the thread design looks very nice man.
