<https://imgur.com/3XnX1yM> e.g

Neos07 - August 13, 2015, 12:54 pm

Try this link: <https://i.imgur.com/3XnX1yM.jpg>

Vanilja - August 13, 2015, 12:55 pm

Need to add extension after the imgur link.

Blue Shadow - August 13, 2015, 12:55 pm

Right click the pic

Copy image url

Use that url.

MisterPonzi - August 13, 2015, 12:56 pm

You need to add .jpg/.png extension in the end.

If the size is invalid, download the image, resize it, upload it to imgur or image host of your choice, add .jpg in the end and you can use it as your HF account avatar.

samtenny - August 13, 2015, 12:57 pm

Done. Nvm. Thanks guys.

.gif files work. But i'm guessing you figured that out considering that you have your avatar now.

Do not spam characters.

As you can see, you are successfully using gif as your avatar, so it obviously "works".

Regarding the previous image you wanted to use, you can use this link
<https://i.imgur.com/3XnX1yM.jpg>
