No.

This method does not involve YouTube.

This method I have never seen anywhere else!

praNNkii - August 15, 2015, 12:03 pm

does it insolve,

facebook/instagram/twitch/csgolounge/steamgroups/teamspeak/webhosting/spaming ?

No.

As I said this method is unusual, making it work all the better!

This is the first of it's kind I've ever seen!

The ebook contain some pretty nice stuff and its not really something "saturated" but the concept is well known and have been used waay back on other niches as well.
7/10 from here.

I focus on quality of the eBook, not quality of my thread design.

It gets the point across.

Vouch! Great EBook! Everything is pretty much fully explained in the guide. It contains a great new innovative method for spreading.

Quality/Layout/Explanation of EBook: 9/10

Effectiveness: 8.5/10

Cost for effectiveness: 9/10

It is overall a good EBook+method for spreading and delivers on all that is promised.

Grievous????? - August 16, 2015, 6:46 pm

Nugga spreads faster than ebola!

Vouch ?

Mnikkilla - August 16, 2015, 7:42 pm

Got a copy of the standard edition, this is my honest review:

- Very easy to read and understand the methods used
- User gives examples to help you understand
- Methods used I've never seen or heard of being used
- They seem like they would definitely work and aren't hard to use
- You can get very good gaming computers using this method (good for mining e.t.c)
- Not autopilot

Hotbeast123 - August 16, 2015, 7:42 pm

Got my hands on a copy and it was a new method I have never seen.

It should work and I will be testing it soon as I think it will get me a lot of slaves.

Tostig - August 16, 2015, 11:12 pm

You have to be retarded to be unable to spread using this method. It's so simple and is bound to work.

KeelanxHacks - August 17, 2015, 9:55 am

This method literally works so easily. This could possibly saturated but highly doubted it.

Use this method for some easy gaming slaves and add your little twist to it to gain slaves even faster!

mozess408 - May 9, 2018, 1:29 pm

hello,

I need uk and usa slaves.

does your spread methode these countries??
