The project has keep Update all the time, there is always ways to further improve.

This is the Third Updated version in my distro with code name C.I.A Version 3 (Custom Improvement Arsenal)

This effort would not have been successfully completed in such a short period of time without the invaluable help of D4rk-50ld13r and Gh0std0g Top Members of TOP-HAT-SEC Forum, Thanked him both for all he has done for us.Special Thanks to TH3CR@CK3R for Editing and system update menu and Thanks to everyone who built the scripts.

based debian

for me is very cool

deserves all eyes

kali 2 i have donwload and dellete (i use debian 7 clean and Wheezy 7.1 Kali GNU/Linux 1.0 for all test)
