zfizma - September 8, 2015, 3:13 pm

This guy helped a lot with our site that we are developing :)
I recommend him to you.

waelcol1 - October 10, 2015, 3:32 pm

Brilliant service, work was completed in a matter of 20 minutes with nothing but quality. I 100% recommend Sk0rg3! for any HTML & CSS project.

Rich Homie Quan - October 12, 2015, 5:11 pm

Great Service! We put him on a crazy short deadline and presented the final product. Amazing prices and knowledge. Would recommend to anyone needing CSS/HTML work!

sk0rg3 - October 21, 2015, 9:17 am

Im still doing this been having some repeat customers but would love some new ones come on guys

could u pm me this link too plz

sk0rg3 - October 31, 2015, 8:09 am

just finished another quick job XD

CoderEX - October 31, 2015, 6:09 pm

I will give sk0rg3 a 10/10 rating!

Why? Because he was able to meet my demands, and also work with me (pricing and requests).

Positive:

[+] Quick; responsive.
[+] Met my requirements.
[+] Decent pricing.
[+] Overall nice person!

Negative:

[-] I don't have any to list.

If you need a quick or complex job done that includes web development, sk0rg3 will be your best friend throughout the whole project! Definitely will recommend him to my friends!

BUMP MODE!!!

come on who is out there

h0lybyte - November 9, 2015, 12:19 pm

Can you do work on network engineering? I need someone to restructure my bridges / vmbr / eth0s / interfaces.

I need to redo my internal vLan and then setup a couple failover IPs .

If not, it is all good.

IAmA-GOAT - November 10, 2015, 3:28 pm

Vouch for sk0rg3 made me a nice page that I needed being created :)

BUMP MODE!!!!!!

LETS GET THIS STARTED PEOPLE

mec - November 11, 2015, 6:42 pm

I'm starting a new website, I was going to do the start page, but my laptop died.

[Http://www.Chat-at.me](http://www.Chat-at.me) basic chat room site. I've got the first version of the chat room setup already. Ie: [Http://www.chat-at.me/here/](http://www.chat-at.me/here/) but what I need is a landing page or home page that looks modern, something catchy. All I got right now is a construction page.

Hmu on email or I'll be around this weekend hopefully.

BUMP!!!! where is this projects at people

Captain Morgan - May 28, 2017, 9:23 am

How complicated sites can you make?

Can you make csgo or crypto gambling games?

sk0rg3 - August 15, 2017, 10:30 am

Portfolio page will be live soon. Will post link in thread and sig space when live.

New thread design coming soon and adding a new service!!!!

Bump!!!! where those projects at

Guardians - August 15, 2017, 4:19 pm

I added you on Skype about a week ago with no response, so am I baffled as to why do you wonder where the projects are at?

sk0rg3 - August 17, 2017, 9:34 am

Sorry for the inconvenience for anyone that tried to reach me on Skype. I'm using Linux and Skype for Linux is having some issue apparently. I logged in on mobile and got all the request i was

missing. Once again sorry for the Inconvenience.

yes i know. I'm sorry i was supposed to have the link up a few days ago but was in the process of moving. Will be up hopefully today.

Sheriff1337 - September 24, 2017, 9:49 am

Can you show me some of your portfolio mate?

I may be interested :)

I have a simple job.

gelsas - September 24, 2017, 5:27 pm

I need a website/php script which is jus displaying or providing a specific set of data via an api.

basically I need what I describe here: <https://hackforums.net/showthread.php?tid=5724097>

Are you able to get the data as described in my thread and then make it available via api? (The data is constantly changing so the php script/website needs a permanent connection to their server to get the current data I think.)

If so I would have a job for you:)

How much would it cost?

Pixie Interactive - October 15, 2017, 12:30 pm

It always boggles my mind when a web development "agency" does not have a website. Might want to look into that.

sk0rg3 - November 30, 2017, 10:35 am

Im back and starting up projects today. PM or reply here for info
