Thread: [|| Turn your Steam Cash into PayPal || 200% REFUND IF FAILURE || TOTALLY WHITE HAT ||](#)

Sarcastic Desires - August 17, 2015, 5:18 am

Hi everyone,

I have known this method for a long time, I'm 100% sure this will work.

I can not add proof to this thread since I'm a poor fuck which has never tried this (due no money).

But I can guarantee you this will work and if it doesn't, I will pay you twice the amount you put in this ebook.

What does it require: A PayPal/Skrill/Webmoney account

Steam account (with balance, or sell your items for Steam balance/cash)

A set of brains

Stuff you should know: I suggest having a starting balance of \$20.

There is no limited on how much you can turn to PayPal.

You can cash out to PayPal, Skrill & Webmoney.

I will include you two methods:

Method 1:

This is the regular method, for people who do not care about profit and rather get the money faster.

Method 2:

Through this method you'll be able to make money on your steam balance. You will not have to lose 30% to 40% anymore on selling random items.

What does this not include: Scamming.

Adsense.

Anything blackhat.

Ewhoring (lol).

Stuff a 10 year old couldn't do.

Payment methods (Price is \$30): Bitcoin

CS:GO Items

Terms of service: Please do not spread/leak/distribute my method, it'll cause saturation.

If you do not understand the method, I will guide you through this. After I've guided you through it and you still don't understand it, you're alignable for a 200% refund.

I can update my terms of service at any given time.

Do not contact me about vouch/review copies, you will be reported.

Thank you for reading this thread.

I'm sorry but I do not think your vouch will increase sales.

You don't have to turn all defensive after someone turns you down. ?

You can do \$60 refund, but you are poor as fuck?? And you never tested this method but still can guarantee that it works?

Poor on steam, not in BTC. As most of my steam balance goes straight to items or games, I have never had the opportunity to test this, but I'm sure this will work.

How have you known about this method and are sure it works if you've never tried it? also what the guy above me said ^

I'm sure that it works. I'm even willing to raise my stakes to a 300% refund. That's how sure I'm about this method.

Op has admitted he never tried this method before and is offering a 300% refund? That is suspicious as fuck, and I recommend exercising extreme caution when dealing with this user.

I'm actually offering a 200% refund but I'm willing to up this to a 300% refund. I'm 100% sure that this method will work and is bullet proof. Since I haven't tried it, doesn't mean it doesn't work. This is literally a simple method, which a couple of my friends (who are aware of my method) do this already, with success. I tried sending you a message back but your put me on your ignore list. I love it how you jump to conclusions.

I'd rather be honest than lying towards everyone their face.

Is this basically selling your items for Steam Cash, buying games while on discount and selling them on kinguin and g2a? If not, pm me with a vouch copy.
