I was asked in advance to review this pack for [Phreakdaline](#). I have to say this pack is great. There are a lot of verification pictures which can be used to prove the identity of the girl. Also there are some very good videos that can be sold for easy money to the pedos. Along with the verification pictures there are lots of toy picture and pu**y pictures....

Originality : 9/10

I have personally never seen this girl before, although Phreaksays she does have SOME pictures public, I have never in my years of 'whoring.

Layout : 10/10

Phreak has ALREADY organized the pictures into the respected folders for you, so when the pedo asks for a certain picture you don't take a hour looking for it!

Overview : 10/10

Overall, this pack is great. I personally can almost guarantee that you will make lots of money off of this pack if used properly.

I got the pack, and the amount of time I've spent ewhoring men do not have high standards of girls when they're able to get nudes from what I've seen.

This pack will surely work if you know what you're doing. There's enough pictures/videos to make a good sum of cash out of it. She isn't the prettiest, but like I said men will do anything for nudes. The quality of the pictures is really good, and like Jenner said I've never seen this girl the entire time I've been ewhoring. So it shouldn't be that saturated.. And 800 pictures is really good for just one girl. I'm serious if this pack is used correctly, you will make some good cash.

I'm not going to say whether or not to buy it, however, I've found what I think to be the same album online in just a minutes worth (or less) reverse image searching with Google. Tineye hasn't managed to come upon this photo yet, so that's why there's a lack of results for it. Gingerpuss also has a Twitter account, and well, a lot of her pics are fairly online and easily downloadable.

Wouldn't recommend this to someone that wants something you won't get a lot of results on by image reversing (As sort of stated in the OP). So please, peeps, know what you're buying and fully read the whole thread. (P.S: Don't know why people are saying they can't find the photos, lol, was fairly easy for me to find them.)

Thank you very much for voicing this in a reasonable manner(first person to do so). I have told everyone about this girl, and how she can indeed be found.

If you are looking for something that can NOT be found with a reverse image search, this is NOT for you.

I have spoken to every person with interest in buying about this, and made sure to point that out to them.

What I CAN say is that you won't find something this tailored for e-whoring online. There was much more work put into it, which is why I feel (and others have felt) that it is worth a bit more. I have always encouraged people to go online and create their own packs if they so desire, the fact is that some people would rather just pay for one that's ready to go.

It's not for everyone. I'm not making any false claims here.

I have however considered lowering the price significantly. This is the first time I have sold something on HackForums, and I am still getting a feel for pricing. There is value to this pack, beyond "finding the first torrent and downloading it" as one user suggested, but I'm rethinking the price. \$15 might be more appropriate.

I am also more than happy to discuss any and all concerns/details over PM or Skype, as I have with several people already.

How about this. I just give the pack to everybody for free since you're trying to rip members off on something that is already free if they can find it?

I'd rather saturate a pack than have some little jerk making money off free stuff easily obtainable by others.

Ask the people who have actually seen the pack. I believe that it is, but my opinion doesn't really count. ? The girl is out there indeed, and many internet dwellers will know her, but the thing to consider is that many of your average e-whore customers are not internet dwelling teens, but middle aged men who may not have seen her. I can tell you that I've never had a customer recognize her, in fact the only people who have, were people here on HF.

I won't try to convince you to buy, cause that's not my game, gotta make that decision for yourself, but talk to some of the people who have actually received the pack if you have questions and discuss with them. I'm also always willing to discuss details via PM.

I did recently reduce the price from \$30 to \$15 after re-evaluating the fact that she's relatively known.

Only buying this if you remove the thread after you have made 2x your money back you put into making this otherwise it will just become more and more saturated over time you sell it.

Do you have any plans to remove this pack?

To be honest man, if saturation is your primary concern, I'd recommend that you not buy this. As stated again and again, she's known in some circles online, and it's very possible that you will occasionally run into people who recognize her. That being said, if for some reason this started to sell a lot more, I'd probably take it down. Not really worried about that at this point though, I've made a couple sales but not many.
