Thread: [\[GDI\] New Steam theme](#)

Aristocles - August 18, 2015, 5:05 am

This is a rebound from [Leumonic](#)'s theme you can find here :
<https://hackforums.net/showthread.php?tid=1690854>

[Themebase](#) || [Themelink](#)

Unam-schari - August 18, 2015, 5:23 am

Thanks dude :*** i love you!! <3
Lets go fakesteam, lets go" :P

Astek - August 18, 2015, 5:25 am

Looks really nice, thanks for sharing.

SIM-1847363 - August 18, 2015, 6:50 am

Was planning on doing this but my overall lazyness stopped me your very good, nice work keep it up.

Odus - August 18, 2015, 7:28 am

Fantastic looking theme, I missed the dark ones.

d4ne - August 18, 2015, 7:29 am

Could I use this theme for my C# project? In case yes how would I get this working? Always just been working with the basic visual studio themes.

Odus - August 18, 2015, 7:34 am

Either convert to C# or compiile as DLL then add as reference.

d4ne - August 18, 2015, 7:34 am

(Aug 18, 2015 07:34 AM).NETGuard Wrote: [\[CITE\]](#) Yes you can. Copy the two classes onto your project and then debug an close your debugging app. You will be able to see all the new buttons etc

(Aug 18, 2015 07:34 AM)ElementalTree Wrote: [\[CITE\]](#) Translate it or use a .dll?
Thanks, ill try it as soon as i arrived home :)

????? - August 18, 2015, 1:54 pm

How do I use this in Visual Studio 2015?
What do I need to add?

SIM-1456245 - August 18, 2015, 3:05 pm

Very nice theme. Good job, looking forward to more themes from you.

eCoLoGy - August 18, 2015, 3:33 pm

Fantastic mate!
As always you made an awesome theme.

Thanks for sharing. ?

Only3 - August 18, 2015, 3:53 pm

themebase lol why u still use it

Aristocles - August 18, 2015, 3:58 pm

"keyboard lol why u still use it"

Was made to be used

Can be helpful

I prefer to "work" with themebase

?

SIM-1676753 - August 18, 2015, 4:11 pm

Your points are valid, though I don't like including my applications with a large class of which I only use 10% of the actual functionality included in it. The theme looks amazing, good work!

SaketSaket - August 18, 2015, 10:22 pm

Wonderful work, theme look awesome... ;)

Paradoxal™ - September 11, 2015, 12:20 pm

this isn't working 4 me :(

Wardow - September 11, 2015, 1:29 pm

Wow great theme, thanks a lot .NETGuard :)

Siy? - September 15, 2015, 2:02 am

(Aug 18, 2015 01:54 PM)????? Wrote: [\[CITE\]](#) How do I use this in Visual Studio 2015?

What do I need to add?

Get the code of the theme,

Go to your project -> create new class.vb -> paste code inside -> run/build your application -> check your toolbox for your new tools.

edit: idk if its changed in 2015. i'm using 2012

Vintel - September 15, 2015, 9:24 am

This is a really nice theme. I love it!

Visual Freedom - September 15, 2015, 9:44 am

Another high quality release. The theme is even better than the release of leumonic!

tweety - September 15, 2015, 10:20 am

Nothing but dark skins here.

asdfghjklwertyuio345678 - September 15, 2015, 11:28 am

Looks amazing man. Thanks for the share.

X3Game - September 15, 2015, 12:06 pm

I love you, thank you for sharing

??

1tap - September 15, 2015, 12:09 pm

Damn this is dope, wish i could rep you bud.

Nickhacker - September 27, 2015, 7:33 am

Thank you How do I use this in Visual Studio 2015?

bho007 - September 30, 2015, 4:42 pm

good looking theme ,Thanks

Vector.A+ - October 1, 2015, 4:55 am

give that man a cookie , very well

Error404UserNotFound - January 20, 2016, 8:42 am

When i create the class it shows me lots of errors,how to fix?

Hawk HF - January 20, 2016, 8:50 am

(Jan 20, 2016 09:42 AM)Error404UserNotFound Wrote: [\[CITE\]](#) When i create the class it shows me lots of errors,how to fix?

This theme uses Aeonhack's Theme Base 1.5.3.

You can find the source to that [here](#).

Add the Theme Base just like you added the theme: create a new class, clear all code in the class, paste the source.

jallvar - February 4, 2016, 5:50 am

Please converted on are c#
i'am coded on the language.
sry for my english

Themebase - <http://pastebin.com/y0bgRPz2>

Theme - <http://pastebin.com/Zt4eBWD2>

also 420th post!!

Xenolium - March 24, 2016, 4:04 am

Thanks heaven! This is exactly what I needed for my modded steam client.
I've been looking all around the web to find a decent source design code.

Haha, now I only need to get a design for the League of Legends client too ;)
