Thread: [Made \\$200 BTC today.](#)

iWatch - August 18, 2015, 2:32 pm

Hey guys, just felt like sharing.

I made around \$200 (was \$200 before BTC dropped a few dollars) today with almost no effort at all. I don't think this is a lot at all, but I just felt like posting it to keep some tracks of my money (to make sure I don't lose it to gambling or waste it).

Didn't use any specific method, I'm a hustler; if I see an opportunity to make some money, I'll see if I can do something.

Thanks!

I'm so jelly, I just lost 2000 dollars and I thought reading bragging rights would make me happy xD

Damn nice earnings man. If you ever need a partner I'll be here doing all the dirty work. :)

I've lost way over \$3000 USD on BTC gambling, so I feel your pain bro.?

Don't think I'll need, and there's not really any "dirty work" to be done as it wasn't blackhat either.

Think outside the box is my best advice.?

Switch from blockchain to coinbase before you get your wallet touched

I'll be using some desktop wallets instead seeing Blockchain's having so many maintenaces lately..

Thanks though!
