We're not the same. There is a difference between you and me.

You are intelligent. I am a dumb fuck. Intelligent people enrage me, I fucking envy and despise your kind that gets 4.0s. I'm around them all day and I feel inferior to them. Fuck them.

However you are socially more autistic than me, (e.g. barricading yourself in a library, wtf bro?). I can befriend men but I'm only interested in hot females. I choose to be alone in terms of males, however I am deprived of hot females.

We're not the same, we're quite opposite actually, however we're two dudes trying to get through this tough world alone. :-(
