Thread: [Computer Performance For Gaming](#)

Srxo - August 19, 2015, 3:37 pm

i have an ASUS laptop that i play a lot of online games on, I've changed a lot of settings to improve the performance but i feel like i can change more, can somebody please tell me if theres a program i can download or settings i can disable or change to boost game performance? just for now until i get a pc for gaming
