Hello,

Your sales thread look good.
I'm very much interested in the method.
Can you please let me know if it includes anything related to CPA/PPD?
I'm asking this because, I'm done up with this as I didn't even earned anything from CPA yet.

Hey there,

Thanks a lot for your interest in my method.
The method doesn't include anything related to CPA/PPD.
So you dont have to worry about making someone doing surveys to download your stuffs.
This method is not even grey hat mate. Its 100% whitehat.

Cool. That looks promising.
If I buy it today, how much time do I need to wait till I get my first payment?

That entirely depends on the amount of time you invest and certain other factors which I can't disclose right now. But, as per my statistics, I worked for half an hour per day for 3 days and got my payment on the 4th day, which was around \$1200. But again, like I said; it depends on certain factors.

How will I get paid? Can I choose BTC as my payment option?

Also, what is the use of this support credits?

You'll get paid mainly via PayPal or wire transfer.

But there is no limitaions to the payment option.

But getting BTC as a payment option will happens rarely. It never happened to me though.

The Support credits is an amazing feature which I have added from my last method. The customers can use this support credit to unlock certain special features exculsively for you or to make us do the work for you.

In short, the method will go simple for you with the help of support credits.

You can spend, earn, and keep track of your support credits on our support website

I gave a quick look at the method ,this is my personal opinion.

Quality: 9/10
Excellent, well organized guide , 40 + pages with text and graphics.

Ease of use: 8.5/10
This is not an auto pilot method , requires a couple of hours of work. But the support credit features will really help me on grounds. Can't wait to get my access to the support website.

Originality: 8/10
I've seen a similar method before, but Jaguar has added his own twist to make the method 100% unique and I'm sure that this method has a lot of potential. I'm confident enough to start working on it now.

Grammar: 9/10
The language is clear as per my observation , some typos are there but otherwise clean and clear English.

Layout: 10/10
The layout of the Ebook is so great so that I was never in a confusion about what to do at any point.

Overall: 8.5/10
I'm so happy that I bought this method. The video tutorials helped me a lot and I just can't wait to try it out now.

Hopefully, I'll post my earnings soon.

Wish me Good luck!

Here goes my review for Pecuary Euphoria

Grammar - 9/10

There are a few grammar mistakes but nothing too drastic. Still very easy to understand.

Content - 10/10

Has a very professional feel to it all. For once an eBook that doesn't talk to you like a complete retard. If you put in the work you will get big bucks honestly. A days work can bank you 500\$+. I am yet to give it a go myself. I can assure you it will be a good buy!

I am in no way affiliated with Jaguar. This review was my honest opinion.
