Thread: [I will hack ANY FB account for you](#)

genocidechimp - August 20, 2015, 1:42 pm

Like the title says, I work at computer IT and can get into anyone's Facebook very easily using my software.

I just want to give back to the community and help some people along the way.

PM me if you're interested. Victoire

critico - August 20, 2015, 3:57 pm

Hi mate, I am new here, I am just looking for some information on how to do that, what programs to use, or where to start, I can't PM you, so please let me know if you can help me.

Thanks

iModEverything - August 20, 2015, 6:36 pm

Going to be a pain since I can't reply back to PMs due to my low amounts of posts. Oh well. Thanks for helping the community out I guess!

tamxkurr - August 21, 2015, 1:56 pm

Brotha. Can you PM me too?

Burakku Kenshi - August 21, 2015, 2:04 pm

On my bullshit scale, this is a clear example of a 10

Quote:I can most certainly do that, the only thing is,

I need some sort of compensation for my time and effort, so I ask for a small donation of 25\$ to my paypal account : adamsmithcrypt@hotmail.com before I give out the password to the account to my clients. Even though this doesn't cover the cost of what it takes to hack accounts it still helps. Let me know if theres any other way I can help. I will send you a screenshot once I'm inside the account proving I'm in, you pay me, I give you the username/password, and we go about our day.

x[PLEASE NOTE: I am not in any way responsible for what you do with his account details. IF YOU GET CAUGHT DOING ANYTHING AND HE CATCHES YOU, YOU DO NOT KNOW ME]X

Let me know if the above is agreeable with you and have a good day.

Cheers and stay off the grid ?

Mihai213 - August 24, 2015, 6:29 am

DamienVC - August 24, 2015, 7:34 am

This is bullshit. You are posting this off marketplace which is not allowed.

Fuck off with your fake FB hacking service. Legit ones go for 700\$ and those are the ones that are actually "attempted" and not scams.

Greg???????????????? - August 25, 2015, 1:39 am

Post in marketplace if you're going to start a service.
