Thread: [Botnet that does Hidden Viewer Traffic Jingling](#)

botrus - August 21, 2015, 4:13 pm

Hello,

I wanted to know if there was any http botnet that does traffic jingling the best

For example I can see a huge way to make a good amount of \$ via ad sense, youtube, twitch.tv, mlg.tv ect

If you have 1000 bots and they A

Visit your youtube page from X time to X time you can give X video many force ad's or even viewbot up HQ page hits

Visit X twitch.tv partnership stream and have them pay ad's to collect via ad sense + give them viewers lets say open X tab to your botnet from x time to X time

Most bots will have flash and mlg and youtube have html5 so most bots should be able to open up a hidden browser and make ad sense

I already have about 20 streamers I viewbot ect, help with views but they are looking to build up there youtube ect, is there a botnet on the market that does traffic jingling like a viewbot and u can set times to load ect

Wanted to know if anyone has done this before and can share

Thanks

I like luminosity for persistence and it has good view bot capabilities aswell.

botrus - August 21, 2015, 4:19 pm

^^ I'm looking for more of a http botnet over a rat, as I have a few streamers who want access to the pannel ect

+ I'm unsure i want to have 1000 + bots on LL, rats are always more stable with less then 1000 connections

Does anyone who own a few botnets or has done this before have any info?

botrus - August 24, 2015, 4:24 pm

I'm looking for some more information on this

?Cyber - August 24, 2015, 4:28 pm

Athena has this last I checked.

botrus - August 25, 2015, 10:11 am

^^ I have asked to see a video in action but there isn't anything online about or or a well written review with video

I wish more people put up vidoes ect on there botnets and how it works, would help with sales I would think.

i need too... up!! :)

?now - December 1, 2016, 3:28 pm

Believe Athena has that as a plugin feature

are you serious? stop bumping old threads.

Xogg - December 1, 2016, 8:00 pm

Never thought about using a net for trafic :O Good idea!

uuwells - December 2, 2016, 8:03 am

im also looking for it???

you should start a new thread. and stop bumping this thread as op is most likely dead by now.

botrus - December 4, 2016, 11:30 am

I'm not dead but don't bump 2 year old topics please
