Thread: [\[TUT\] How to quickly make your skype unresolvable w pictures](#)

unknown321 - August 22, 2015, 6:10 am

In this tutorial i will show you how to quickly set up a proxy with skype and make your account unresolvable with all resolvers.

Step One: Go to this url and find a free fast proxy to use. Make sure anonymity level is set to the highest as well as speed and connection time to ensure your skype wont run slow.

<http://proxylist.hidemyass.com/search-1300265#listable>

Spoiler [\(Click to View\)](#)

Step Two: Open up skype, then get to skypes connection settings by clicking the following at the top toolbar Skype>Privacy...>Advanced>Connection. Then where it says automatic proxy detection choose https and put in your proxy along with the port number. Next check the checkbox that says allow direct connections to your contacts only. Click save and restart skype.

Spoiler [\(Click to View\)](#)

Step Three: Try resolving yourself

Note: You don't need to use a proxy, all you need to do is check the allow direct connections to contacts only checkbox in order to be unresolvable. But if someone is on your skype list and uses a sniffer then they can get your ip thats why you use a proxy.

Proof:

The down side of using a proxy is that someone could do this: `h t t p s : / / w w w . y o u t u b e . c o m / w a t c h ? v = x D s l q M C a L Z M` (remove spaces)

Hey, I did everything in the post and made sure everything was the same as the pictures, but I can still resolve it. Tried two proxies from hidemyass and still can't get it.

are you sure the checkbox is checked for allow direct connection to contact only? try restarting your skype too.

MoonmanKKK - *August 23, 2015, 6:11 am*

You need to restart your PC and change your real IP adress.

Edward10432 - *August 23, 2015, 10:54 pm*

All you do is go on options>advanced> connection and check "allow direct connection to contacts only" simple as that unresolvable

Jonnyy8699 - *August 23, 2015, 11:28 pm*

Lol thanks for the guide m8, although I may owe more thanks to Edward
