I there a way to revert it back to its default HWID after you change it?

Get your current volume serial number with thid:

in CMD: vol c: or vol d: ...

Then change it later.

I agree with you sir, this is exactly the volume serial number changer.

Moon Rock - August 24, 2015, 10:16 pm

Looks good, thanks for releasing this ?

Before changing it, get it first using: vol (c: or d: ...) in CMD, then revert it later.

dwSmiguel2 - September 6, 2015, 3:08 pm

i'd like that , thanks in advance
