Nex+ - August 24, 2015, 6:24 pm

To all of you who said I couldn't pay 8k in 3 months and laughed at my \$300 down payment to show my seriousness. I ended up paying just above 11k in total for Debug as the Bitcoin just crashed tremendously. I ended up paying 6.5k in one month.

I will be owner shortly.

J?son - August 24, 2015, 6:25 pm

Hot fucking damn.

I got the funds from it? I paid more for the ownership of that botnet that I have profited from it. I was told everything works 100% when bought ownership, but it didn't and it does work great now since updated. Go fuck yourself.

Tfw you need to prove yourself to a forum full of teenagers that you were right by paying way too much for a group that is probably going to be shitty looking at how the community currently is
