Sounds legitimate to me. He just has that tone to his voice that says "Success"

Ruinedsaint - August 25, 2015, 6:26 am

We're all doing a Skype conference call with Veezon that's about to start in 5 minutes. Lots of people in the chatroom and we're all excited to start this shit.

Here's hoping this is full of useful information.

Adding "123" to my comment to show I watched the whole video.

Veezon, rarely do I post anymore but I must say that I'm impressed with what you have done and are doing, my only regret is that I can't actually join in with your mentoring program myself as I don't have a PC or Phone that can run Skype.

Either way, keep up the good work!
