Thread: [How do you get a lot of retweets on your CSGO Giveaways?](#)

I always see twitter give aways have 1000+ retweets even when the account is a few days old, what is the trick to get your twitter csgo giveaways to have a lot of retweets? do you just follow like 1000 people and then post it?

go on the search and type in like "looking for csgo *whatever youre giving away*" etc etc, and peoples tweets will show up. Favorite them or mention them and theyll look at your profile, and bam. Be creative for what you search
